

Police, Soldiers Hunt Last of Detroit Snipers

Death Toll Reaches 33 In Rioting

DETROIT (AP) — National Guardsmen and police raked buildings and rubble-strewn streets with machine-gun and small-arms fire today as they battled elusive snipers on Detroit's war-torn West Side. Only an occasional shot re-

placed the stutler of automatic weapons as the city's third night of racial terror ended. Cyrus Vance, a special assistant in the Defense Department and President Johnson's deputy

Detroit Statistics

DETROIT (AP) — Here are the latest statistics in Detroit's fourth day of rioting:
Dead: 33
Injured: More than 1,000
Property damage: \$200 million, and officials say the total should reach \$1 billion.
Arrests: 2,651
Fires: 1,153

on the scene, said there had been a "substantial reduction in the incident rate" in the past few hours but that more people would die before violence ended.

"I can't predict how long we can expect further sniper incidents," Vance told newsmen. "You have to dig them out."

Vance said there were still no plans to move Army paratroopers from the now apparently secured East Side to replace beleaguered National Guardsmen on the West Side, scene of hours-long pitched battles that claimed 10 more lives during the night.

100 Snipers Left

The 10 persons were killed by gunfire, some apparently by accident, raising the toll of dead

FBI Arrests SNCC Leader

H. Rap Brown In Custody on Rioting Charge

WASHINGTON (AP) — FBI agents arrested H. Rap Brown today on Maryland charges of complicity in a Negro riot at Cambridge.

FBI Director J. Edgar Hoover said Brown was taken into custody at Washington National Airport about 10 a. m.

Brown, national chairman of

Brown

the Student Nonviolent Coordinating Committee, has been charged with unlawful flight to avoid prosecution, based on a local Maryland warrant which charged Brown with inciting arson at Cambridge.

Brown spoke to a crowd of 100 in Cambridge for 45 minutes Monday night. About an hour later 1,000 Negroes rioted for two hours, and a fire spread along two blocks of Pine Street, destroying about a dozen buildings.

Brown was named Tuesday in state warrants charging him with inciting a riot and "counseling and procuring the burning of the Pine Street Elementary Schools."

Worst in Saginaw

Outstate Michigan Struck by Violence

SAGINAW, Mich. (AP) — Racial violence flared in eight Michigan cities Tuesday night, including Saginaw, which has a Negro mayor.

At least five persons were wounded in Saginaw after the mayor had rejected demands of a civil rights group. Riots and disturbances, hopping first erupting in Detroit, also hit Grand Rapids, Pontiac, Flint, Muskegon, Benton Harbor and Mount Clemens.

The five were injured when Saginaw police battled snipers in the midst of a cheering crowd in the city of 98,000. Saginaw is 100 miles northwest of Detroit.

Officers arrested 54 persons in the outbreak that came after the city's Negro mayor, Henry G. Marsh, had turned down demands of a federation of civil rights groups. United Power, to be heard in a meeting between Marsh and some business leaders on civil rights.

Houses Burned

Grand Rapids, the state's second largest city with 200,000 residents, seethed after three Negroes had been shot and slightly wounded while trying to urge an angry crowd to calm down Tuesday. Houses were burned and snipers fired sporadically in the city 150 miles northwest of Detroit.

Pontiac where two Negroes were killed a day earlier by gunfire, cooled off Tuesday. Police arrested 45 persons in the city of 82,000, only 25 miles northwest of Detroit. But most arrests were for curfew violations. Looting, fire bombing and sniping had hit the heavily industrialized city the night before.

In Flint 60 miles north of Detroit, officials tried to head off violence with a unique plan. Prosecutor Robert Leonard of Genesee County won approval to release 110 persons arrested the night before on condition the arrested persons go into troubled areas and try to talk their friends out of more violence.

Whether that was the reason or not, calm returned Tuesday

B52s Pound Gun Positions In N. Vietnam

U. S. Sends Planes On Rare Mission Over Buffer Zone

SAIGON (AP) — Waves of high-altitude B52 bombers made one of their rare invasions of North Vietnam today for a saturation raid on gun emplacements and dug-in bunkers of the North Vietnamese 341st Division just above the 17th Parallel frontier.

The U.S. Command said the big bombers came in waves two hours apart and saturated an area almost two miles long and two miles wide with a lethal rain of bombs.

The number of bombers was not disclosed but the size of the target area indicated a far greater than average strike. The big bombers probably unloaded hundreds of thousands of pounds of bombs on the North Vietnamese emplacements.

North of Zone

The target area was just north of the demilitarized zone dividing Vietnam and about 14 miles inland—the area where the 341st Division is posted and from which heavy Communist guns have for weeks fired deadly barrages on U.S. Marines dug in about seven miles to the south.

Although ground action was scattered and inconclusive, there were these other developments in the war.

1. The U.S. Command announced that the Forrestal, America's third largest aircraft carrier, has joined the 7th Fleet operating against North Vietnam from the Tonkin Gulf. The Australian destroyer Hobart also rejoined the fleet bombarding North Vietnam.

2. Two American jets were downed over North Vietnam Tuesday. They brought announced U.S. combat plane losses over North Vietnam to 617. They were a Navy A4 Skyhawk jet and a two-place Air Force F4C Phantom. The three fighters are missing in action.

3. South Vietnamese headquarters said two more Communist mines ripped up the road and blew up a small concrete bridge on Highway 4, the main road from Saigon into the Mekong Delta and long regarded as one of the nation's safest roads.

Montreal Newspapers blared out the story of French President Charles de Gaulle after he practically told Quebec and separatists to follow their own

pro-French course. The speech stirred up the controversy which has been going on for years between Quebec province and Ottawa. (AP Wirephoto)

Cuts Visit Short

De Gaulle Won't See Pearson

MONTREAL (AP) — Gen. the wrong foot from the start, world outside Paris. The scheduled visit of Canadian Prime Minister Lester B. Pearson to Montreal today for a state dinner to honor the national government and other ceremonial functions.

A government source reported that De Gaulle resisted this today, and it was in effect confirmed by a member of the French president's party.

This development came about eight hours before De Gaulle was to arrive in Ottawa for a ceremonial greeting from top Canadian officials. It was just 14 hours after Pearson had issued a statement rebuking the general for his cry, "Long live free Quebec" at Montreal. Pearson said statements by De Gaulle are unacceptable to the Canadian people and its government.

Wrong Foot
Today a spokesman for the French Foreign Office, who accompanied De Gaulle to Montreal, said "The word unacceptable" itself is unacceptable. The De Gaulle trip got off on

Biafran Port Captured, Nigeria Says

LAGOS (AP) — The Nigerian government announced today it had invaded rebellious Biafra by sea and captured the important oil terminal at Bonny.

A combined navy and army force inflicted heavy casualties on rebel troops in the port in Nigeria's eastern sector, which declared its independence from the federal government in May, the government said.

Bonny is the first town in the southern part of Biafra to be captured by federal troops.

The government gave no details of the invasion but vessels of the Nigerian navy, which includes a frigate and a number of patrol boats, left Lagos at the beginning of the week.

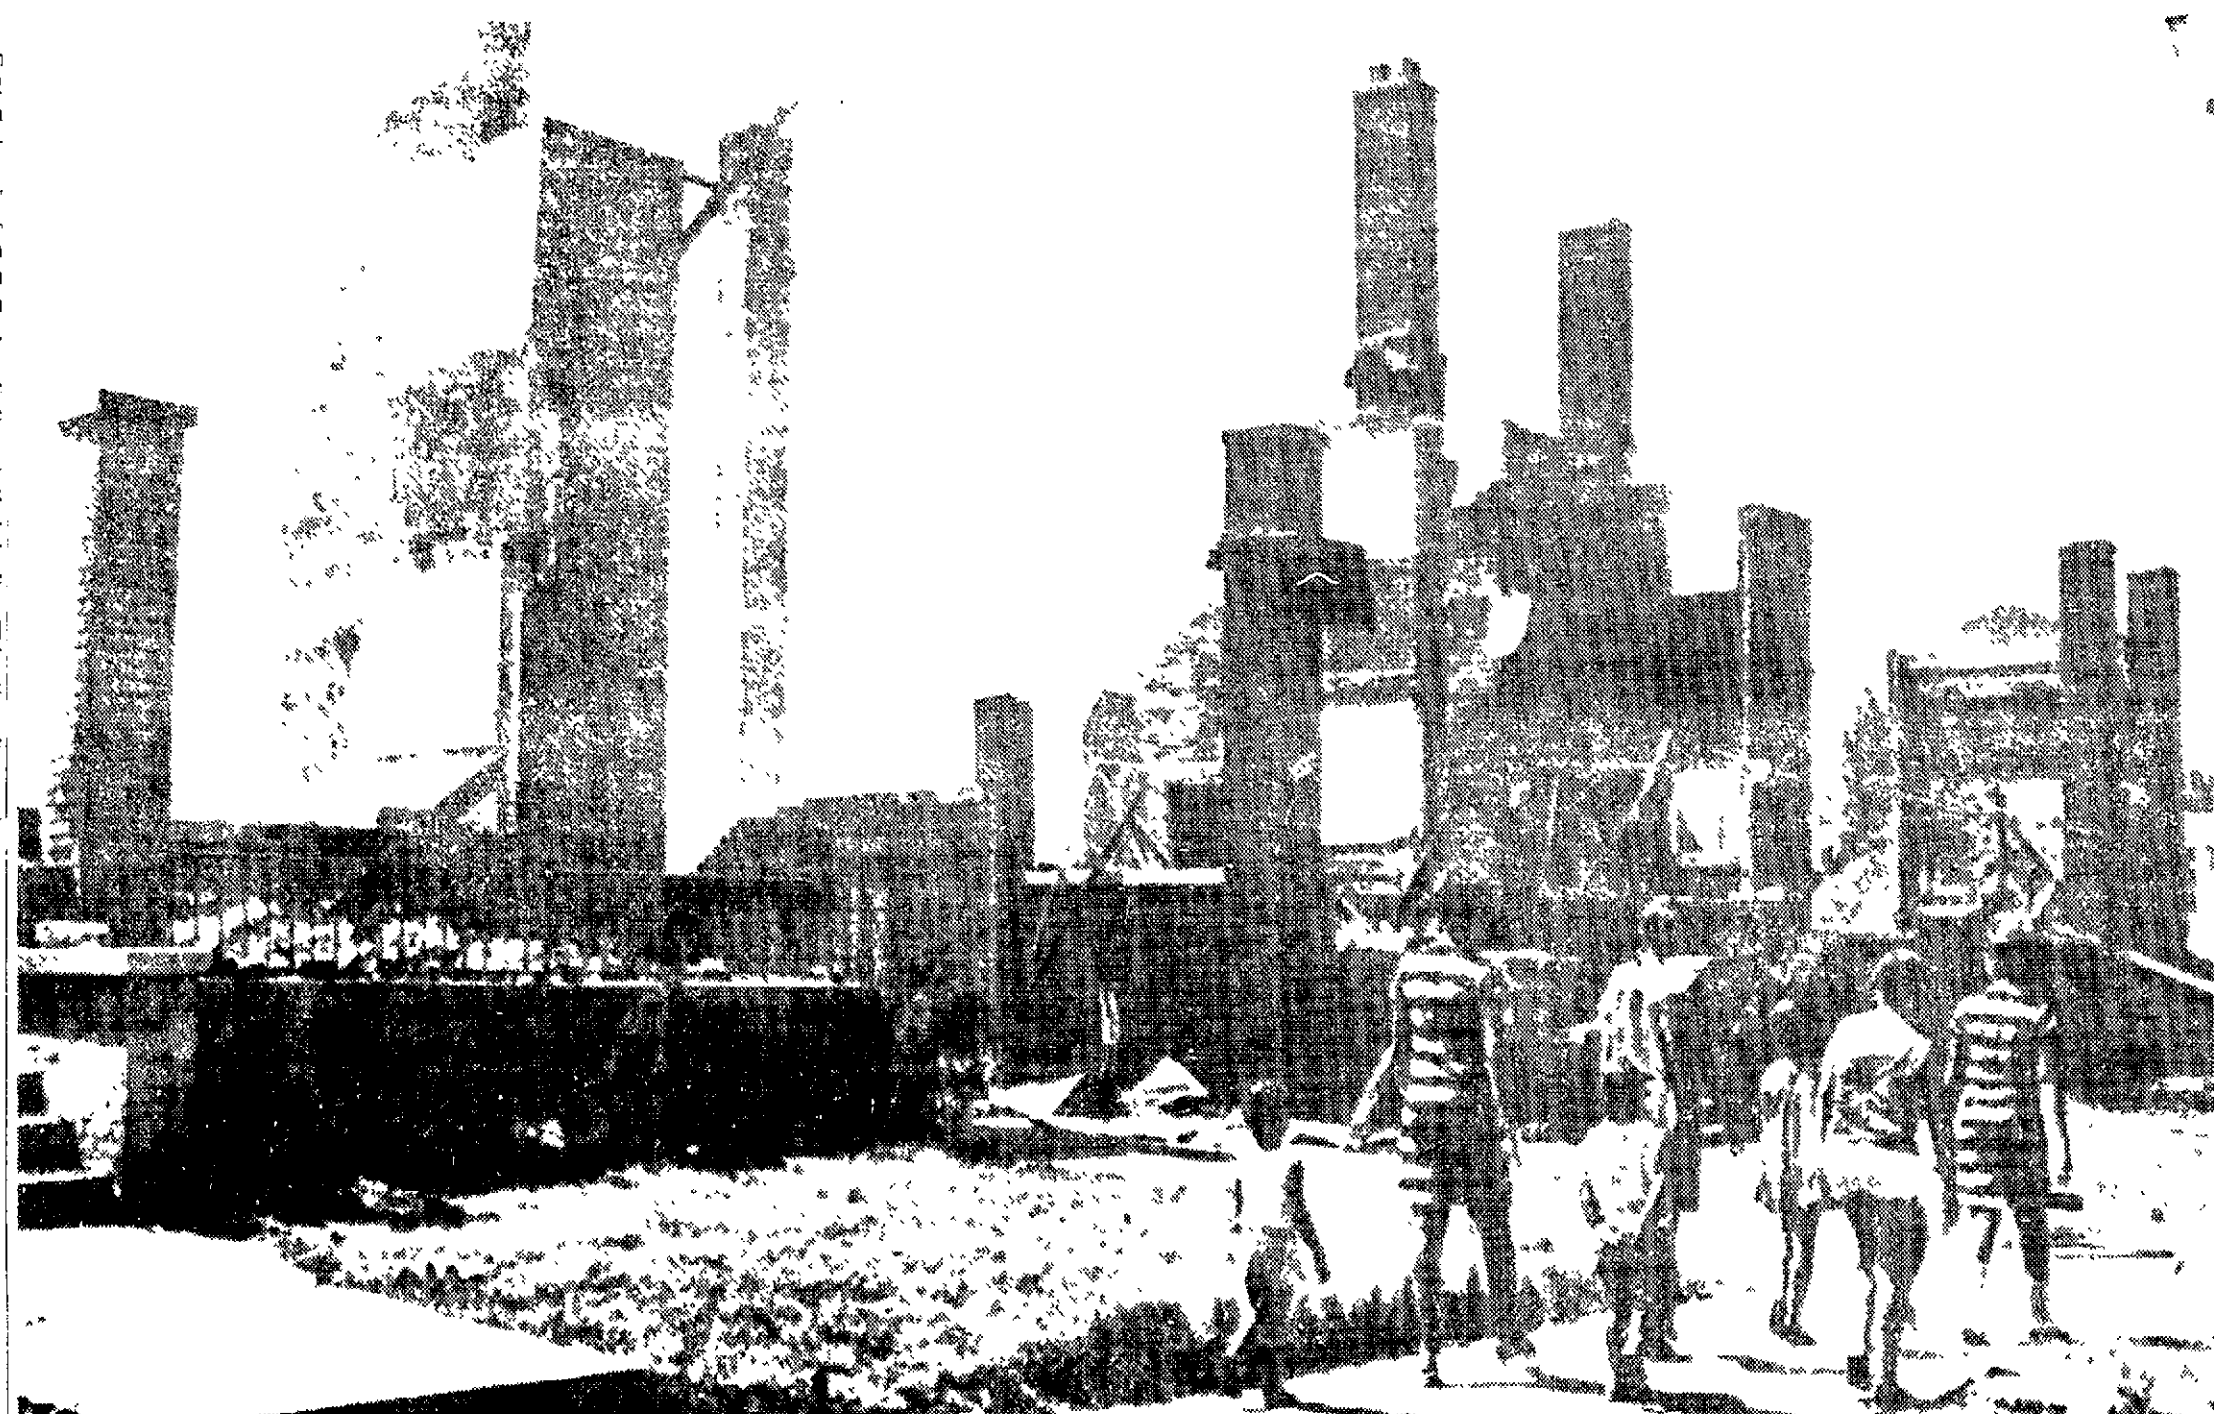

The government also had bought up a large number of outboard motors and all boats in the Lagos area over 18 feet long. Presumably these were used in a small boat invasion on Bonny Tuesday.

Flowers Aren't So Thirsty Now

Fox Cities — Clearing and cool tonight, low near 58. Thursday, fair and cool, high near 76. Northwest winds 12-20 m.p.h. diminishing to 8-12 m.p.h. tonight. Precipitation probability, 20 per cent this evening and less than 10 per cent Thursday.

Appleton — Observations for the past 24 hours at 10:30 a.m. show high of 83, low of 61. Barometer, 29.20 and steady; humidity, 81 per cent; dew point, 64; wind, from the south-southwest at 10 m.p.h.; skies, cloudy; precipitation, .55 inch.

Sun sets today at 8:26 p.m., rises tomorrow at 5:35 a.m.

The Remains of Once Substantial homes which were caught in the path of Detroit rioters are viewed by a strolling woman and children. The houses are a short distance from 12th Street, center of the riot area. Former residents have either left town or moved in with relatives. (AP Wirephoto)

Senate, Assembly Proud of Work on Budget, Oleo Ban

By JAMES R. POLK
MADISON (AP) — The 1967 Legislature did raise taxes. It created one new tax barely noticed in the din that heralded passage of the bill in which it was born. The newcomer is the 5 1/4 cents a pound tax placed on colored oleomargarine, welcomed into Wisconsin four weeks ago after 72 years as an outlaw. The special oleo tax failed to taint the GOP jubilation over Gordon Roseleip, R-Darlington, passage of a record billion-dollar budget free of any new Gov. Warren P. Knowles than half the cost, with \$307 mil-

boost in state taxes for the first time since 1953. Colored oleo and a balanced budget were the most important political goals for many of the lawmakers in the 1967 session ending this week. Each came easier than expected. The oleo tax, earmarked for dairy research facilities, was not included as part of the huge budget for state operations. The main budget bill reached a record \$1.1 billion, up 24 percent over the previous spending pace. It is the first billion-dollar budget in Wisconsin history. Education accounts for more than half the cost, with \$307 mil-

he signed the bill into law May 24 and ended the colorful Wisconsin era of petticoat bootlegging by housewives who smuggled oleo in from surrounding states. The oleo tax, earmarked for dairy research facilities, was not included as part of the huge budget for state operations. The main budget bill reached a record \$1.1 billion, up 24 percent over the previous spending pace. It is the first billion-dollar budget in Wisconsin history. Education accounts for more than half the cost, with \$307 mil-

It took the Assembly only a single day in April to approve repeal of the 19th century ban. The Senate, butter's pet burial ground for previous bills, needed a week to outwait debate on 122 amendments offered by Sen. Roseleip, R-Darlington, but whipped each one.

Second of a series.

lion going for aid to local Democratic tries to boost school schools and another \$277 million aids by another \$30 million and flowing to the University of Wisconsin argued it couldn't be done without new taxes. However, a small increase is likely in the October session if the spare cash can be found.

A second budget passed by the Assembly and awaiting approval Thursday in the Senate will hike the total cost of state government to just under \$2 billion over the two-year spending period. The \$844 million special budget covers conservation, highways, retirement benefits and other separate funds. The state highway commission will receive \$498 million of the sum. Knowles praised a booming economy for making possible a budget balanced without new taxes. The second stage of the income tax increase approved by the 1965 Legislature also helped. Despite the astronomical size of the spending package, there was little room left for new projects. Republicans rebuffed repeated

Ban Lifted
Lawmakers approved a \$4 million program to begin tax-paid school bus transportation for parochial pupils in September after voters lifted the constitutional ban on the bus rides. The passage of the constitutional amendment 494,000 to 377,000 in the spring election ended a 20-year religious war. The amendment had been approved by the Assembly 91-8 and the Senate 30-0. The Republican-controlled Legislature endorsed Knowles' suggestion for a thorough study of shared taxes before any effort to revise the formulas for state aid to local government. The problems to try to handle.

LAONA, Wis. (AP)—A Shawano boy, found floating Monday evening in an Oconto County lake, died Tuesday in a Laona hospital. Coroner Clarence McMahon said the victim, Paul Raasch, 5, died of complications stemming from having been in the water for a long period. McMahon said the boy fell off the end of a dock at Archibald Lake in the Town of Townsend, and that his mother, Mrs. Ralph Raasch, was uncertain how long the boy was in the water before she reached him.

comes one week after the 1969 Legislature begins. With another state tax increase likely to be necessary two years from now, the study leaves the next Legislature with a heritage of two prickly tax problems to try to handle. (Next: The traffic problem.)

Shawano Boy Dies Of Water Injuries

LAONA, Wis. (AP)—A Shawano boy, found floating Monday evening in an Oconto County lake, died Tuesday in a Laona hospital. Coroner Clarence McMahon said the victim, Paul Raasch, 5, died of complications stemming from having been in the water for a long period. McMahon said the boy fell off the end of a dock at Archibald Lake in the Town of Townsend, and that his mother, Mrs. Ralph Raasch, was uncertain how long the boy was in the water before she reached him.

Replica of 1911 Biplane Crashes

WAUKESHA (AP)—A replica of a 1911 Curtiss biplane crashed into a cornfield just south of the Waukesha County Airport Tuesday night. The pilot, Dale Crites, 60, suffered only minor injuries and behind his head.

walked away from the wreck. The plane's engine failed as the craft was about 100 feet in the air, a witness said. The plane was made almost entirely of wood and fabric. The pilot sat in a metal chair almost directly over the front wheel. The engine, propeller and radiator were located

Set Aside Savings as You Would an Expense

BY SYLVIA PORTER

Yesterday's column gave you the basic rules for calculating your total expected yearly income and dividing it into 12 monthly periods, the first step in drawing up any budget.

Your next step is to list, on a second sheet of paper, all of your fixed expenses during the coming year and also to convert each of these to a monthly basis. These are the inflexible, unavoidable bills you must arrange to pay before you can know how much you'll have left over to spend on flexible, day-to-day expenses and on extras.

Among the less-obvious fixed expenses to include on your monthly list are savings.

Savings as Expense

Put down a total you could reasonably expect to save each

month. By treating savings as an expense and budgeting for savings as you must for rent or

Porter

mortgage payments, you will discipline yourself into building a nestegg. Your small monthly totals will become big totals over a period of time.

Your savings total always should include an emergency fund equal to at least two months income, to cover big

unforeseen expenses such as illness, unexpected home repairs, moving expenses if you change job locations. (Note: the emergency part of your savings fund should be kept in a readily accessible form, that is, in cash or its equivalent.)

As a starter, earmark five per cent of your total monthly income for savings, and boost the percentage from there if you can swing it.

Personal Allowances

Also among your less obvious fixed expenses are monthly personal allowances for each family member. The amount of allowance you allot to each will depend partly on what expenses each person is expected to meet out of the allowance. Is it supposed to pay for Christmas presents? School clothes?

Books? Lunches? But whatever your decision, this allowance should belong to the individual and what he or she does with it should be strictly his or her own affair. A family council is probably the best way to arrive at specific allowances for each member. The council can be reconvened periodically for review and revision of the amounts.

Among the more obvious fixed expenses to include on your monthly list are:

- Rent or mortgage payments;
- Predictable, regular household bills for such items as fuel, telephone and utilities;
- Installment payments you make regularly for your car, washing machine, personal or education loan, etc.;

Medical Expenses

Medical expenses which can be accurately pinpointed for the year: individual health insurance premiums, yearly X-rays, physical, dental and eye exams, predictable drug and vitamin bills.

— Automobile and commuting expenses which you can accurately estimate, such as commuter train tickets, monthly garage bills, average gas and oil bills for your car or cars.

Total all your fixed expenses for each month and for the whole year. Deduct these totals from the monthly and yearly income figures you have put down on sheet No. 1. You have now taken care of

THORNDIKE, Maine (AP)—Death came faster than a postcard mailed by a Boy Scout to his scoutmaster.

It took more than 52 years for the card to go from Boston,

your inflexible expenses which, in effect, you must regard as already spent from each paycheck. By dividing them into monthly totals, you have eliminated the shock of the big now-and-then bills and put the expenses into realistic focus.

Remaining are the totals available to cover your flexible, day-to-day expenses and to finance your luxuries.

Tomorrow: how to estimate and juggle day-to-day expenses. (All Rights Reserved)

Mass. to Thorndike, Maine. Both sender and intended receiver died years before the card arrived 11 days ago.

Boy Scout Edgar Farwell mailed the card March 12, 1915, to Scoutmaster Lewis E. Hogan, saying what a "nice time" he was having in Boston.

Hogan's sister, Mrs. Oscar Tweedie, received the card.

She said it was in perfect condition and the Boston postmark date clearly legible. The card also bore a Portland, Maine, postmark July 12, 1967. Postal officials at Portland had no explanation for the long delay.

Hogan died 20 years ago. Farwell died several years ago.

into production of 1968 model cars at Kenosha and Milwaukee Aug. 7. Manufacturing Vice President Gerald C. Meyers announced Monday.

Phasing out of 1967 production was completed the week of July 10. The annual shutdown for employee vacations and new model tooling began July 17.

Tito to Try to Repair Soviet-Egypt Rift

By THE ASSOCIATED PRESS

President Tito of Yugoslavia, one of Egypt's staunchest combat supporters in the war with Israel, will visit Cairo "within the next few days" to discuss the Middle East situation with President Gamal Abdel Nasser, the semi-official newspaper Al-Ahram said today.

Yugoslavia spearheaded the unsuccessful attempt by non-aligned nations at the United Nations to win General Assembly approval of a resolution demanding unconditional Israeli withdrawal from the territory won from the Arab states in the lightning war.

Damaged Reputation

Diplomats in Belgrade said recently that the Kremlin is counting on Tito's influence with Arab leaders to repair the damage Israel's military victory inflicted on the Soviet Union's reputation in the Arab world.

Egypt sought to bolster its nearly bankrupt economy Tuesday with a new austerity budget including tax increases, higher prices and drastic reductions in government spending. Such commodities as sugar, tea, cooking oil, cigarettes and beverages will cost 10 to 20 per cent more. Sales taxes on cars and spare parts to up 50 per cent, and a new national security tax raises defense taxes the same amount. Government subsidies on rationed food and other essential items were reduced.

Lost Income

Egypt's economic boss, Zakaria Mohieddin, told a news conference "we lost a vital portion of our income" with the closing of the Suez Canal and the loss of tourist revenue since the war.

In Amman, Jordan's King Hussein told Parliament an Arab summit meeting was needed now "more than any

Police, Soldiers Hunt Last of Detroit Snipers

CONTINUED FROM PAGE 1

in two days and three nights to 33.

Vance said Lt. Gen. John Throckmorton, commander of the paratroopers and of the federalized Guardsmen, estimated there were no more than 100 snipers left in the city.

"At this point, it is our conclusion that this is not a highly organized thing," he added.

Two city policemen and possibly five guardsmen were wounded in pitched battles, frequently sparked by the single report of a small weapon or the whine of a bullet.

A National Guard tank rumbled over cars drawn across a street in one area and poured bursts of .50-caliber machine-gun bullets into the darkness for more than half an hour after scattered shots struck its side.

Several blocks away a single shot from a small-caliber rifle halted another tank, and within minutes 20 police cars, each carrying four men, pulled up at the scene.

Fusillades from a light machine gun, rifles and shotguns drew occasional shots, but again the sniper or snipers got away.

2 Gunned Down

Two Negroes were gunned down in their car by Guardsmen at a roadblock near a Fire Department command post. A fire captain told Guardsmen to open up when one of them leaned from a window with a pistol.

With the new deaths, Detroit's riots were two short of being the costliest in terms of human life in recent U.S. history. Thirty-four died at aWitts in 1965.

It already was the costliest in all other respects.

Injuries climbed to more than 1,000 with 280 hospitalized. City officials said property damage and business losses in the two days and three nights of Negro rebellion could reach \$1 billion.

New fires set by arsonists and looters boosted the total to 1,153. Arrests mounted to 2,651 with bail as high as \$200,000 set for suspected snipers.

Refugee Problem

As bullets whined in the streets, the city faced another problem, potentially as costly as the near anarchy of the present—hundreds, possibly thousands, burned from homes or jobs had become refugees.

Food lines formed in one area.

In Detroit, hours-long battles deafened a five-square-mile section where a routine police raid over the rest of the city where on a Negro night spot sparked the original rioting Sunday.

Machine gun bullets spattered through apartment house win-

Carmichael in Cuba Says Negroes to Wage Warfare

HAVANA (AP) — Stokely Carmichael says Negroes in American cities are going to wage a guerrilla "fight to the death," the Cuban news agency reported Tuesday as the U.S. Black Power leader arrived in Havana for a revolutionary conference.

The Prensa Latina agency quoted the fiery 26-year-old Negro as saying: "In Newark we applied war tactics of the guer-

Carmichael

rilla. We are preparing groups of urban guerrillas for our defense in the cities. The price of these rebellions is a high price that one must pay. This fight is not going to be a simple street meeting. It is going to be a fight to the death."

The Black Power leader came to Havana for the meeting of the Latin-American Organization of Solidarity opening July 31. U.S. racial problems are on the meeting's agenda.

Carmichael flew from London to Prague Monday and then to Havana. Non-Communist newsmen were not allowed to approach him at the Havana airport.

In the Prensa Latina interview which the agency said Carmichael gave in London, he said he decided to come to Cuba because of an April message attributed to the vanished Cuban guerrilla leader Ernesto Guevara. The message urged Latin-American revolutionaries to stir up more Vietnam-like situations.

Carmichael said Guevara inspired American Negroes and that Prime Minister Fidel Castro's visit to Harlem in 1960 was momentous "in the history of the fight of North American Negroes."

In the United States, the Alabama state Senate in a resolution asked that Carmichael be denied re-entry to the United States and called him "a blasphemous and profane Communist revolutionary."

time before." He said Arab leaders should study the results of the Arab defeat and plan for the future.

Hussein also disclosed that he had ordered the army command to prepare a training program for Jordanian citizens not already in the armed forces.

Moslem non-Arab leaders of Iran, Pakistan and Turkey are scheduled to hold secret talks at a Caspian Sea resort Saturday to "review Middle Eastern problems." Informed sources in Tehran said Shah Mohammed Reza Pahlavi, Turkish President Cevdet Sunay and President Mohammed Ayub Khan of Pakistan would confer at the resort town of Ramsar.

Jewish Campaign

In Jerusalem, Rabbi Pesach Levovitz, president of the U.S. Rabbinical Council, said the council would launch a campaign to have American Jewish families send at least one member to Israel, either as a permanent resident or for a prolonged stay.

In the Sinai Desert, Israeli troops are still digging Egyptian military equipment out of the sand dunes where the Arabs abandoned them.

"We've already uncovered enough ammunition to keep the Egyptian army going for six months," said an Israeli officer.

About 700 Soviet T54 tanks, 100 of them undamaged, already have been rounded up at El Ar-lah.

Presidency Not Topic Of Governors

MADISON (AP) — Michigan's Gov. George W. Romney was on the telephone Tuesday within moments after Wisconsin's Gov. Warren P. Knowles signed into law an expanded presidential primary meant to involve all national contenders next year.

But Knowles said the two governors talked only about an economic development meeting planned today in Michigan and didn't mention the pursuit of the presidency.

"We didn't have any discussion of the presidential aspirations he may or may not have," Knowles said.

The exchange was symbolic of the signing, which produced its excitement in anticipation rather than action.

Woman Dies in Fire At Home in Kenosha

KENOSHA (AP)—Sandra Kozak, 24, died of smoke inhalation Tuesday during a fire which caused an estimated \$3,000 damage to her parents' home.

Miss Kozak's parents were away vacationing at Lake Dela-ware when the fire occurred. Cause of the blaze was not definitely established.

Market Owners George, left, and Gene Matti guard the remains of their looted store which is near the center of Detroit's riot area. "We just spent \$30,000 to remodel the store—and look at it!" Gene said. (AP Wirephoto)

Knowles Grants Raise To Auto Commissioner

MADISON (AP)— Gov. Warren P. Knowles signed Tuesday a bill raising the salary of the motor vehicle commissioner by lifting the post into a new pay classification.

Top salary in the new slot is currently receiving \$15,000.

Cabbie Retires at 82

CLEARWATER, Fla. (AP) — Sidney Wigfall wore out 20 taxis and never had either a traffic accident or a ticket during his nearly 50 years as a cab driver. He has just retired at 82.

\$22,500 annually. The present commissioner, James Karns, is receiving \$15,000.

Women Belong in Politics, Governor Says

NEW YORK (AP) — Gov. Nelson A. Rockefeller has told a group of business women that American women are leading lives of "domestication without representation" because they are not becoming involved in government in sufficient numbers.

Chicago Stops Looting Spurt

Police Quickly Seal Off Area of Potential Danger

CHICAGO (AP) — Police blocked off a five-block area of a Negro community on Chicago's West Side today and quickly stifled sporadic looting of stores by Negro youths.

Several youths were arrested. Negro youths shattered windows in 12 to 15 stores along a five-block stretch of Madison Street, 2½ miles west of downtown Chicago.

Some merchandise was carted off before police sealed off the five blocks to traffic for about two hours and chased youths from the street.

A few homemade bombs were thrown on the hot, muggy night. No serious damage or injuries were reported.

Some bottles and rocks were tossed at motorists, breaking car windows.

Police reinforcements were dispatched Tuesday night to White Sox Park on the South Side, where gangs of Negro youths smashed windows and threw two homemade bombs. During a White Sox-Cleveland Indians baseball game, the crowds dwindled as the baseball game continued well past midnight.

Little Chute Okays \$460,818 Proposal

Board Approves Cut in School Budget to Lessen Tax Burden

LITTLE CHUTE — A \$460,818 school budget requiring a tax rate of 17.5 mills, one mill less than anticipated, was approved by district voters at the annual meeting Monday night.

The new tax rate will raise \$342,249 in revenue. The original board of education proposal would have set the rate at 18.5 mills and raised an anticipated \$362,176 in taxes.

The board approved the cut last week in order to lessen the burden on taxpayers.

Village Cooperation

The change was possible in view of cooperation by the village board in delaying until next year payment of \$8,000 for street development in St. Aubin plat. The school district will also have a smaller balance at the end of the year than originally planned.

The 17.5 mill rate is still less than the 19.5 to 21.5 rate anticipated when voters chose to support the new school district two years ago. Last year's rate was 14 mills.

Increased budget expenditures are centered in three main areas — \$32,000 to complete a kindergarten addition without bonding; \$57,000 for tuition and transportation to Kimberly, Kaukauna and Appleton; and \$34,046 for 5.5 additional faculty members and salary increases.

Tuition Figure

The tuition and transportation figure represents \$37,000 of last year's obligation not included in last year's budget. It represents also an item transferred from the village budget to the school budget and as such will not result in a net tax increase.

In other business, Supt. Leo Bronkalla enumerated several new programs to an audience he described as "very receptive."

Foremost topic was the team kindergarten instruction program for which \$32,000 was appropriated in the budget. Of this, \$30,000 will come from the Elementary - Secondary Education Act this year, and \$20,000 in each of the next two years.

The newly-developed concept will group 75 students in a large room where they will be under the direction of two "master" teachers and four para-professionals.

Safety Program

Bronkalla also explained the proposed safety education program which would be financed by the Cooperative Education Service Agency (CESA) and involve public and parochial schools in Little Chute, Kimberly and Freedom.

The program includes development of a 4½-acre tract near the high school where driver education pupils will be able to experience every conceivable traffic situation.

The program will provide safety training for all grades and may constitute a model safety driver education program for the entire country.

Bronkalla is hoping for federal approval by October.

Two Keep Board Posts For Three-Year Terms In Kaukauna District

KIMBERLY — One candidate successfully regained his seat on the Board of Education of Joint School District No. 6 for his fourth consecutive three-year term and another was re-elected unopposed Monday.

Eugene Schellhout, 617 E. Kimberly St., Kimberly, had a total of 146 votes and will return to the board for his fourth term. He was opposed by Patrick Netzel, 331 S. Karlyn St., Kimberly.

Frank Gossens, route 4, Appleton, representing the towns of Buchanan and Harrison, was unopposed and will retain his seat on the board for a second term.

struction of utilities in vandalized areas, the overloading of medical facilities, the extra cost of fire departments and public safety personnel. The effects of the curfew alone are expected to cost millions, since many businesses operate at night.

"Beyond that," Havens concluded, "I don't know how you put a price tag on injury and death that are involved."

Detroit's Riot Losses Might Hit \$1 Billion

Commerce Official Makes Estimate in Lost Trade, Taxes

DETROIT (AP) — The cost of rioting in the three-county Detroit metropolitan area eventually could reach \$1 billion, predicts Dwight Havens, president of the Greater Detroit Board of Commerce.

"We're using a ballpark figure on this," he said in an interview.

"It's really such a guessimate at this point I'm almost embarrassed to cite it," he said, "but we can see where the total dollar estimate might reach a billion dollars."

"Beyond this," he added, "you've got your costs that are directly involved in the looting itself. There's material that is either stolen or damaged beyond recall. There's obviously going to be a large loss of tax revenue. We are estimating that the total loss in retail sales alone may be \$60 million."

Havens explained that the projection is based on the year's anticipated total volume proportioned down to three days, which assumes that there will be no more pillaging. If there is more, which seems likely, the estimate will rise.

Payroll loss? "We can't even get a guess from the major employers at this time," Havens said. "They just sort of chuckle sadly."

"If this had happened at a different time, when the auto companies were operating at full steam, this could have been much worse than it is," he said. He said giant General Motors is in the middle of its model changeover and almost no production is going on.

Auto Industry Slowed

Although absenteeism is high — up to 65 per cent in one Ford plant — production is more or less under way in the auto industry. Three Chrysler plants which had been closed were reopened Tuesday, with absenteeism running about 50 per cent. The night shift was cut to four hours because of the 9 p.m. curfew, and the overnight shift was eliminated.

Ford opened all its facilities except the Dearborn assembly plant. Not enough workers showed up there to keep the production line running.

The industrial loss in other fields also is great. Detroit is a center of plastics manufacturing, pharmaceuticals, metal fabrication, nonpassenger automotive production and foundry casting.

Loss of Prestige

Beyond that, Havens said, "we've got other losses which are harder to pin down — such things as the prestige loss. This will affect our convention business, and I'm sure it's already affected our recreation business. Oakland County alone (site of racially tense Pontiac riot which lies just north of Wayne County, where Detroit is) has more miles of waterfront than any county in the United States, they claim."

Detroit's information office says it will be several days at least before it is known how much in taxes the city will lose from the destruction of taxable property. The fire department's preliminary damage estimate exceeds \$150 million.

What else?

Flow of Goods

"The disruption of the flow of goods in and out of the Detroit area has resulted in great losses, but don't ask me for figures on this because they won't be available for many days," Havens said.

One of 4 Referendums

Kimberly District Buys Village Hall Facility

KIMBERLY — Purchase of the building could be converted at a nominal fee.

The village hall for school purposes was approved by the district meeting by a 3-1 majority in one of four referendums passed Monday.

Village officials had agreed to sell the building and parking lot to the district for \$120,000. It previously had been appraised for \$128,000.

According to the board the facility will be used for a hot lunch room for the elementary school and also will afford much-needed classrooms and administration offices. Part of the building will be used for storage and a maintenance room for district equipment. The village plans to build a new hall.

One objection raised was the facility was built for its present purpose and couldn't readily be converted to school use. However this was put aside after the engineer's study indicated

Merger Announced by Waukesha Motor Firm

NEW YORK (AP)—An agreement has been made to merge Waukesha Motor Co. of Waukesha, Wis., into Cooper Industries Inc. of Mount Vernon, Ohio.

The two firms announced Monday the agreement in principle is subject to approval of directors and shareholders of the both firms. The plan calls for Cooper to issue one share of new convertible preferred stock for each Waukesha share.

Waukesha produces engines. Cooper is a diversified manufacturing firm. The facturer.

The electorate approved the purchase of 1.39 acres of land elected all board officers, preliminary hearing. McBair was ruled sane and able to stand trial after an examination at Central State Hospital in Waukesha.

Set Hearing for Plainfield Man Named in Killings

Post-Crescent News Service

WAUTOMA — A preliminary hearing has been scheduled for 10 a.m. Aug. 15 for James D. (Butch) McBair, 24, Plainfield, charged with four counts of first degree murder.

McBair, an unemployed factory worker, is charged in the slayings of his estranged wife, Carol, 25; her stepfather, Marvin Behr, 62; Behr's daughter, Barbara, 15, and Cheryl Jean Oleson, 14, a baby sitter, all of whom were killed at the Fish Lake cottage owned by Behr.

County Judge Boyd A. Clark in final action the group re-elected all board officers, preliminary hearing. McBair was ruled sane and able to stand trial after an examination at Central State Hospital in Wautoma.

Croquettes Can be Delicious, Savory

The word "croquette" should for at least one hour before cooking. Heat fat in deep pan to 350 degrees. Cook croquettes on the outside and soft, creamy three to five minutes or until golden brown; drain on paper towels. Recipe makes 10 croquettes.

Too often croquettes are associated with lumpy, dull and heavy foods made primarily to use up the leftovers. This is unfortunate because, when properly prepared, croquettes can be delicious. That is the way they always should be, whether made from scratch or with such leftovers as finely minced meat, chicken, turkey, seafoods, vegetables and even macaroni and cheese.

It's the sauce that makes the difference, plus a careful watch on cooking time and preparation. The chilling of the croquette mixture makes shaping easy; allow the mixture to stand at least two hours or overnight (covered) in the refrigerator. Then shape as quickly as possible into cones or sausage shapes, place on a cookie sheet covered with waxed paper and chill again for at least two hours.

Any of the following recipes may be frozen before cooking and stir until sauce becomes very thick. Add cheese; blend until solid. Then wrap each croquette individually for freezer storage.

Note that these recipes use a simplified technique for sauce. A popular powdered non-dairy creamer is used instead of cream and the result is a smooth, creamy and rich-tasting.

VEAL CROQUETTES

- 4 1/2 tablespoons butter
- 9 tablespoons flour
- 3/4 cup non-dairy creamer
- 1 1/2 cups boiling water
- 2 cups ground, cooked veal
- 1/4 teaspoon white pepper
- 1/4 teaspoon salt
- 3 tablespoons finely chopped onion
- 1 egg
- 1 tablespoon water
- 3/4 cup fine bread crumbs

Fat for deep-fat frying

In a heavy-bottomed saucepan, melt butter over low heat until frothy. Blend in flour with a wire whip; cook and stir one minute. Add non-dairy creamer, then boiling water all at once; beat with wire whip to blend.

Increase heat to moderately high; cook and stir until sauce becomes very thick.

Combine veal, seasonings and chopped onion; add white sauce and mix until well blended.

Spoon into a shallow dish; cover with plastic wrap and chill at least two hours or overnight in the refrigerator. Quickly shape into 10 croquettes and chill again for several hours.

Beat egg and water together. Dip croquettes into crumbs, then in egg mixture, and again in crumbs. Refrigerate again for at least one hour before cooking. Heat fat in deep pan to 350-degrees. Cook croquettes three to five minutes or until golden brown; drain on paper towels. Recipe makes 10 croquettes.

Combine macaroni, pimiento, parsley, onion and seasonings. Blend into cheese sauce; mix well. Spoon into a shallow dish, cover with plastic wrap, and refrigerate overnight or until firm.

Cut into squares. Place on cookie sheet lined with waxed paper and chill at least two hours. Combine egg and water. Dip croquettes into bread crumbs, egg mixture and again

EGG CROQUETTES

- 3 tablespoons butter
- 6 tablespoons flour
- 1/2 cup non-dairy creamer
- 1 cup boiling water
- 1/4 cup grated American cheese
- 4 hard-cooked eggs, finely chopped
- 3 tablespoons minced parsley
- 1 tablespoon minced onion
- 1 tablespoon minced celery
- 1/2 teaspoon salt
- Dash of white pepper
- 1 egg
- 1 tablespoon water
- 3/4 cup fine bread crumbs

Fat for deep-fat frying

Melt butter over low heat until frothy, blend in flour; cook and stir one minute. Add non-dairy creamer, then boiling water all at once; beat with wire whip to blend. Increase heat to moderately high; cook and stir until sauce becomes very thick. Add cheese; blend until solid. Then wrap each croquette individually for freezer storage.

Combine eggs, parsley, onion, celery, salt and pepper; add to cheese sauce and mix well. Spoon into shallow dish; cover with plastic wrap and chill at least two hours or overnight in the refrigerator.

Quickly shape into croquettes; chill again for several hours.

Beat egg and water together. Dip croquettes into crumbs, then in egg mixture, and again in crumbs. Refrigerate again for at least one hour before cooking. Heat fat in deep pan to 350-degrees. Cook croquettes three to five minutes or until golden brown; drain on paper towels. Recipe makes 10 croquettes.

MACARONI AND CHEESE CROQUETTES

- 3 tablespoons butter
- 6 tablespoons flour
- 1/2 cup non-dairy creamer
- 1 cup boiling water
- 1 cup grated sharp cheese
- 1 cup cooked macaroni
- 1 pimiento, chopped
- 1 tablespoon chopped parsley

Cooked foods such as minced chicken, meat, seafood, eggs, cheese and vegetables form the basis of the croquette. A thick white sauce is the binder and it's the consistency and quality of this sauce which determine whether the croquettes will be temptingly light and creamy or heavy and pasty.

- 1 tablespoon finely chopped onion
- 1 teaspoon salt
- 1/4 teaspoon paprika
- 1 egg
- 1 tablespoon water
- 1/2 cup fine bread crumbs

Fat for deep-fat frying

Melt butter over low heat; blend in flour; cook and stir one minute. Add creamer, boiling water all at once. Beat with wire whip to blend. Increase heat to moderately high; continue to cook, stirring constantly, until mixture becomes very thick. Add grated cheese, stirring until cheese melts.

Combine macaroni, pimiento, parsley, onion and seasonings. Blend into cheese sauce; mix well. Spoon into a shallow dish, cover with plastic wrap, and refrigerate overnight or until firm.

Dior, Bohan Put Hems At Knee

By LUCIE NOEL

PARIS (AP) — The House of Dior showed a winter collection Tuesday that was pretty, feminine and swishing with caps.

Dior, who broke a tradition and showed only to buyers, had most hemlines brushing the knee, but some party dresses were a little shorter.

Like other Paris designers, Marc Bohan seemed to be shunning the miniskirt craze, according to buyer sources.

There was a jungle of stripes, used horizontally or vertically on beautiful Besson tweeds.

Capes Abounded
Capes of every length were shown on suits and dresses.

Bohan brought out a series of lace dresses, on colored foundations—blue, green, pike or white.

The buyer consensus, from stores across the United States, was that Bohan has one of his best collections ever.

Some buyers gave top praise to the cocktail dresses, others to sportswear.

Dior's regular press showing is on Thursday. There was no explanation for the press being left out today.

Pierre Balmain's display for fashion writers was luxurious all the way through.

Easy Way

The main interest was in zigzag hemlines, which is one way of dealing with the varying skirt tastes. One point of the zigzag reaches calf length and the other point the kneecap.

Balmain does this again and again in lace and bunched flounces where fabric petals are mixed with ostrich feathers.

The evening silhouette is slinky and slender, and there are many halter-top necklines.

One Sweet Solution for Dieters

Doctors and nutritionists generally in in agreement that sensible weight reduction plans should follow normal diet patterns as closely as possible, but that effort should be made to avoid excess "empty" calories wherever possible. Calorie-wise cooks have learned that it's the little things in cooking that make the big calories differences. Each

CALORIE COUNTDOWN

cup of sugar in a recipe, for instance, adds 864 extra calories.

Give up desserts, then? Not necessarily. Although almost all heavyweights get that way partly because they have a sweet tooth, sweets are important to the dieter's morale. When desserts have been an anticipated part of the day's menu, weight watchers will feel cheated if they no longer can end the meal with a sweet treat.

Calorie-concerned cooks now know that there is a solution to that age-old problem of not being able to have your cake and eat it too. Thanks to man's inventiveness, calorie-free sweeteners have been developed which taste just as satisfyingly sweet as sugar. A cyclamate-type is one favored by cooks because it is completely stable at both high cooking temperatures and freezer temperatures, never turning bitter or losing its natural sweet taste.

In the following calorie-streamlined recipe, developed by home economists for Abbott Laboratories, a delightful Rhu-

barb-Strawberry Pie is offered to dieters at considerably less than half its usual calorie count. Enjoy this sweet treat for just 125 calories!

RHUBARB-STRAWBERRY PIE

4 cups rhubarb, cut into 1-inch pieces
3 cups strawberries, hulled
1 tablespoon lemon juice
3 tablespoons liquid sweetener
3 tablespoons quick-cooking tapioca
½ teaspoon nutmeg
Pastry for single crust

In a large bowl, combine rhubarb, strawberries, lemon meg, toss lightly with fruit.

juice and sweetener; mix lightly. Turn fruit into shallow 1½-quart each 125 calories; 2 grams protein; 5 grams fat, 19 grams carbohydrate.

Roll out pastry to fit casserole; place over fruit and seal edges. Slash pastry in several places to allow steam to escape during baking. Bake in a 450-degree oven 15 minutes, reduce heat to 350 degrees and bake 30 minutes longer, or until crust is golden and fruit is tender.

Recipe makes eight servings.

Imaginative Dash

For even slices of corned beef hash, chill the hash in the can. Cut top of can completely away with can opener, cut away bottom of can but leave round of metal in place. Press against the metal round and empty hash, cut hash into four slices.

Your Problems

'Fortress of Flesh' Helps Man Escape From World, Ann Says

BY ANN LANDERS

DEAR ANN LANDERS: Recently you printed a letter about a man who committed suicide because of the insults and the smart cracks about a physical handicap which he was supposed to accept as jokes.

It might be useful if you would print a letter from an abnormal individual who knows only too well what it is like.

Here is my story: I have been extremely overweight since I was a young boy. I have undergone every test imaginable and the results are always the same — no organic problem. I am on a constant diet which keeps me at 400 pounds. This is all I can hope for.

I am employed by a small firm because the top companies in this field will not hire me. I can't get insurance. No girl will ever marry me. My best friend apologized for being unable to have me in his wedding party because I would "ruin the looks of the ceremony." I could write more of the same — Freak Of a book about the clothing industry and their treatment of oversized people. The only thing I can say about American cars is that they are better than foreign cars. I have to pay \$5,000 for a car I can get into and drive.

The chairs in most theaters, restaurants and sports arenas make it impossible for me to enjoy a night out. If I fly I must travel first class since tourist seats are too small. Hotels and motels have turned me away because they were afraid I would break the beds and chairs

When I visit friends I am constantly being asked to "sit down." The truth is that very few chairs are built to support a person who weighs 400 pounds. The Armed Forces turned me down. So did the Peace Corps.

Landers

Excessively obese people can't even serve their country.

So you see, Ann, it isn't only the insults and jokes and the stares of little children that drive me to the brink. It's the denial of so many things most people take for granted. The worst of it is knowing that the future holds nothing for me but more of the same — Freak Of The Entire State.

Dear Friend: While I sympathize with you, as I sympathize with all people who are wretchedly unhappy, I am baffled as to why you have resigned yourself to remaining a 400-pounder forever when the tests show no organic abnormalities. The obvious conclusion is that you are obese because you are a compulsive eater.

You did not ask for advice, but I would feel remiss in my duty if I did not offer it. Go to a psychiatrist and learn why

you insist on maintaining this fortress of flesh around yourself. From whom are you hiding?

DEAR ANN LANDERS: I am 15 but nobody would guess it. For over a year I have been served cocktails in several bars and no one has even asked to see my ID card.

My problem is a fellow who is 23. He looks like John Forsythe and we are in love. Unfortunately he has had some trouble with the law (not his fault) and my folks have told me I can't date him.

His parents like me and they say I am very good for him. They say if my folks throw me out I can live with them. How can I get my folks to be reasonable? — Sad Teen

Dear Teen: You're going to be a lot sadder if you don't quit drinking cocktails and running around with a fellow who is five years too old for you.

Don't try to be a parole officer. And, furthermore, if you are smart you will listen to your parents, not his.

Unsure of yourself on dates? What's right? What's wrong? Should you? Shouldn't you? Send for Ann Landers' booklet, "Dating Do's and Don'ts," enclosing with your request 35 cents in coin and a long, self-addressed, stamped envelope.

Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper enclosing a self-addressed, stamped envelope.

Flavor comes first with Allsweet. It was that lighthearted, soft, sweet flavor that first made regular Allsweet one of America's all-time favorites. That same flavor is also available today in new Allsweet Soft. (It took two years to get the recipe just right—flavor is released faster in soft margarine, so the balance of ingredients is critical.) Which does your family prefer—soft or stick? Either way, enjoy the soft, sweet, Allsweet flavor.

Another Fine Product from

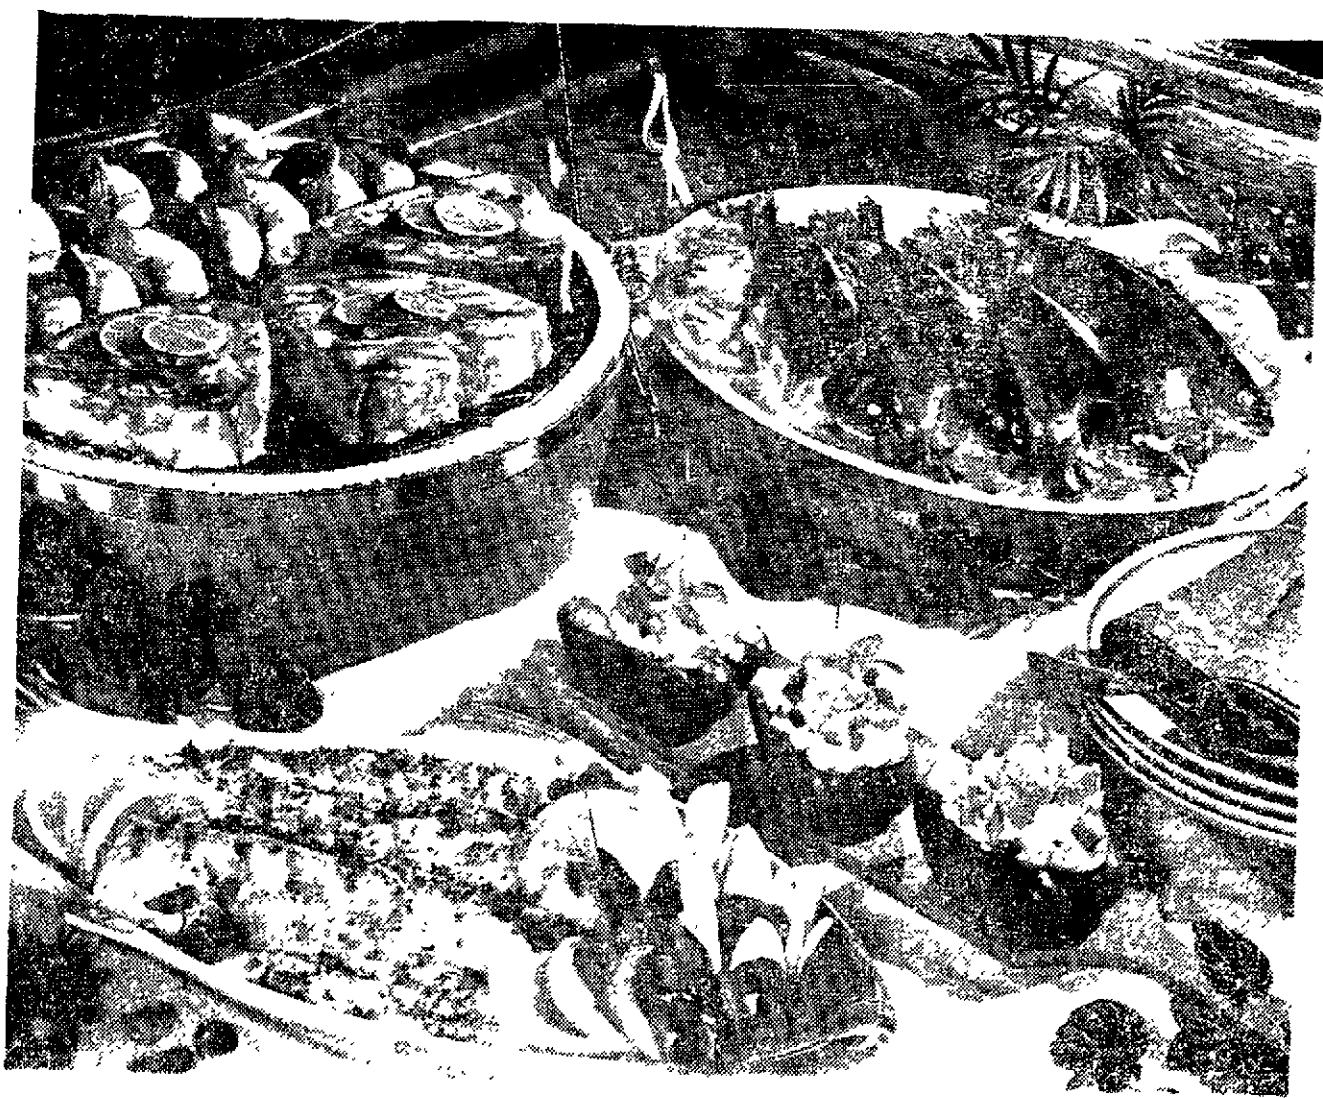

Filet of Sole—Broiled Tomatoes

Stuffed Trout

This is a Fine Kettle of Fish

POST-CRESCENT FOOD EDITOR
By Lillian Mackesy

Easy-Do Fish Barbecue

Fish and shellfish fill the bill anytime, of course, but eaten out of doors, at the lake or on a beach picnic they are particularly delicious.

Fish is a good summer main dish because it's so easy to prepare. Fish are tasty, tender and high in energy-giving food values. Fish requires a minimum of cooking to make it interesting.

There are so many varieties to choose from — it becomes easy to pamper guests by catering to individual tastes.

The supermarket has a wide selection of fresh or frozen filets, steaks, and pan-dressed fish waiting the hostess' choice. Fish portions and sticks are always popular with the young set, then, too, one can find canned crab, tuna, salmon or shrimp for fix-ahead salads and "appealing" dips.

Barbecuing is one of the simplest and most enjoyable ways to entertain — it's a perfect way to save the hostess. Make sure everything is ready ahead of time, then follow the pattern. Better still, turn the barbecuing chores over to some male chef just waiting to show off his skill.

A variety menu bound to please everyone at the party can include several different dishes. There can be: Dilly Fish

with its cheese filling, barbecued spice fish steaks, party pepper boats with its delightful dill sauce, and the easy-do fish barbecue.

Another favorite fish available at most markets is the sole. Other filets may be substituted for the recipe for Pirat's Cove. Pirat's Cove is a delicious barbecue. It is suggested that this dish be served with dill sauce. Lemon-Butter Broiled Tomatoes.

With so many fishermen home from the trout streams, there is included an excellent recipe for stuffed trout.

They all are worth trying.

JUST 'DILLY' FISH

3 pounds pan-dressed fish
Cheese Filling
1/2 cup melted fat or oil
1/2 cup lemon juice
1 tablespoon grated lemon rind
2 teaspoons salt
1/2 teaspoon pepper
Paprika

Clean, wash and dry fish. Place Cheese Filling in cavity of each fish. Place fish in well-oiled, hinged, wire grill. Combine remaining ingredients except paprika. Mix thoroughly. Baste fish with sauce. Sprinkle with paprika. Cook about five inches from moderately hot coals for 10 to 15 minutes. Baste with sauce. Sprinkle with paprika.

Turn. Cook for 10 to 15 minutes longer or until fish flakes easily when tested with a fork. Recipe makes six servings.

Cheese Filling

3 ounces cream cheese, softened
1/2 cup chopped peeled cucumber
2 tablespoons dried peeled lemon
1 tablespoon grated lemon rind
1 teaspoon chopped fresh dill
1/2 teaspoon dill seed

Combine all ingredients. Mix thoroughly. Recipe makes approximately two-thirds cup stuffing.

BARBECUED

SPICY FISH STEAKS

2 pounds fish steaks, fresh or frozen
1/2 cup barbecue sauce
1/2 cup melted fat or oil
1 cup lemon juice
1 tablespoon Worcestershire sauce
2 teaspoons barbecue spice
1 teaspoon dry mustard
1 teaspoon salt
dash pepper
6 thin lemon slices
chopped parsley

Thaw frozen steaks. Cut steaks into six portions. Place

New National President

Mrs. McClanahan Tells View Of BPW Equal Rights Effort

By JOY MILLER

NEW YORK (AP) — Mabel McClanahan is a trim, green-eyed, brown-haired businesswoman who's now 29 and an airline pilot. He has been married six years and has yet to make her a woman from Appleton, Wis., who believes that women have a long way to go to reach legal equality with men.

At the same time, she thinks men deserve a better break in divorce and alimony settlements. That shows right there what a fair-minded woman is taking over the helm of the 178,000-member National Federation of Business and Professional Women's Clubs, Inc., at its annual convention this week.

Her organization "is working strongly for an equal-rights amendment to get equality for women," she says. "I don't think there can be a broad enough interpretation under the 14th Amendment."

Positive Attitude — "We women have to take a positive approach to show that we are capable of employment and of managing our own affairs."

Mrs. McClanahan has been managing her own affairs for a good long time. A divorcee for

20 years, she brought up a son, who's now 29 and an airline pilot. He has been married six years and has yet to make her a woman from Appleton, Wis., who believes that women have a long way to go to reach legal equality with men.

She is a leader in Appleton's business community. She works as secretary and business manager of Crane Engineering Sales, Inc., which means she handles accounting, cost analysis, tax consulting, purchasing, personnel development, customer relations and advertising for various companies and businesses. Before that she owned and managed a business service and a public stenography agency.

Her community service includes politics, and the hospital auxiliary, presiding at the taxpayers' association meetings, serving on her state advisory council to the Small Business Administration and spearheading the establishment of the Governor's Commission on the Status of Women in Wisconsin. She is an unpretentious devout Lutheran.

Mrs. McClanahan thinks the general public misunderstands what women want.

"Our interest is in the same professional opportunities, and retained their feminine legal rights as men. But I still think, and more women in politics have doors opened for me, when it's a social occasion."

"But if it's in a business situation, I don't want them to open the door. I don't want them to watch their language. I want to be considered a member of the Duluth, Minn., traveled the far group. At the meeting, maybe, the distance. Relatives also the men are a little wary of me, attended from Kimberly, combined Locks, Appleton, Horton, sets the tone."

Mrs. McClanahan, who has worked her way to the top of member-ship, says she has watched the father, Max Bloch, 84. The organization gradually come to a more centralized emphasis. "We used to have a do-it-yourself program and no nation-

The oldest member at the BPW in 21 years of member-ship, says she has watched the father, Max Bloch, 84. The organization gradually come to a more centralized emphasis. "We used to have a do-it-yourself program and no nation-

Lynn Kellogg To Appear on Tonight Show

Lynn Kellogg went all the way to Vietnam for a reunion with an old friend. In the audience of servicemen as the U.S.O. troupe began its show was Joseph Graves, son of the Edward Graves, 444 Nicolet Blvd., Neenah. The soldier couldn't believe his ears when Lynn's name was announced, and when he told his commanding officer he knew Lynn, the officer couldn't believe his. But the two did manage to get together for a good visit and old friend, Joe, was invited to the party held in the officers' tent after the show.

One outcome of her trip to Vietnam is an appearance on the Tonight Show, either today or Thursday, reports her mother, Mrs. H. B. Kellogg, 1311 Lehman Lane.

Makeshift Stages

Mrs. Kellogg says her daughter told of performances all over Vietnam, sometimes setting up a platform in the middle of a muddy field. Most of the movement about the country was by helicopter, and Lynn tells of flying aboard a rescue helicopter, where, lying on the webbing floor, she had a real view of the countryside. She was very excited and pleased about the tour, and says that the servicemen are most grateful to performers who come in and take their minds off their work.

Miss Kellogg says that Jonathan Winters was a real pro. Whenever he saw a group of six or seven men together he went over and put on a show for them. For her own act, she had to wear a mini skirt and tights. She sang favorite folk songs for the men and finished her act with "This Land is Your Land."

He will appear with the Israel Philharmonic Orchestra in the wide fund-raising tour will begin fund-raising Hollywood Bowl with three concerts in Philharmonic Hall in New York City.

The sponsoring Jewish Federation of Greater Los Angeles said Monday a national fund-raising tour will begin fund-raising Hollywood Bowl with three concerts in Philharmonic Hall in New York City.

Gladiolus Society Plans Sunday Judging School

The Wisconsin State Gladiolus Society Judging School and picnic will be held for the second consecutive year at Alicia Park Shopping Center. The Fox River Gladiolus Society will be host at the Sunday event.

Purpose of the pre-show meeting by members of the four participating state gladiolus groups is to keep abreast of any changes in judging policy as laid down by the North American Gladiolus Council and to assure a constant supply of qualified judges for area shows.

Each society will make its show schedule available at the meeting. Four shows will be held in Northeastern Wisconsin.

Engagement Of Daughter Announced

BLACK CREEK — Mr. and Mrs. Albert A. Lee Jr., Brookhaven, Pa., have announced the engagement of their daughter, Sharon Elaine, to Donald A. Volkman. He is the son of Mr. and Mrs. Orval Volkman, route 1, Black Creek.

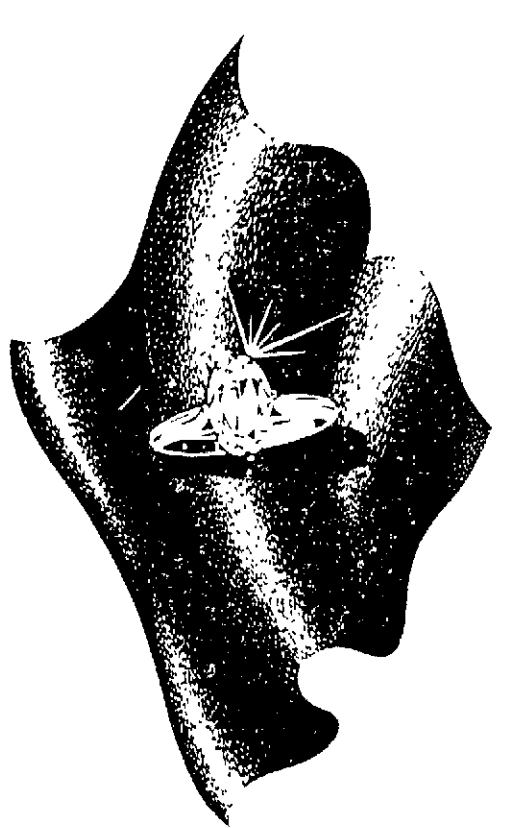

Miss Lee was graduated from Germantown Dispensary and Hospital School of Nursing, Philadelphia, Pa. Her fiancé is with Colonial Penn Group Data Corp., Philadelphia, Pa.

Hennes Family Holds Reunion

KAUKAUNA — The Hennes family held a reunion Saturday at La Follette Park. Approximately 108 relatives attended from Kaukauna, Appleton, Menasha, Madison, Green Bay and Manitowoc.

Committee members were Mrs. Duane Hennes and Mrs. Robert Schwalbach. Gordon Hennes, Harold Hennes, Robert Kindler and Jerome Hennes will have charge of next year's reunion.

Fishin's Good... So Are Recipes

CONTINUED ON PAGE 16

fish in a single layer in a shallow baking dish. Combine remaining ingredients except lemon and parsley. Mix thoroughly. Pour sauce over fish and let stand for 30 minutes, turning once.

Remove fish, reserving sauce for basting. Place fish on a well-greased grill about four inches from moderately hot coals. Cook for five to eight minutes. Baste with sauce. Turn Cook five to eight minutes longer or until fish flake easily when tested with a fork. Garnish with lemon slices and parsley.

PARTY PEPPER BOATS

1 can (1 pound) salmon or 2 cans (6½ or 7 ounces each) tuna
3 large green peppers
1 cup cottage cheese
½ cup diced apple
½ cup sliced celery
2 hard-cooked eggs, chopped
¼ cup drained sweet pickle relish
2 tablespoons chopped green onions and tops
2 tablespoons chopped pimiento
Pimientos
Toothpicks
Salad greens
Dill Sauce

Drain salmon or tuna and break into large pieces. Cut green peppers in half lengthwise. Remove stem end core

and wash green peppers. Combine cottage cheese, apple, celery, egg, pickle relish, onion, pimiento, and salmon or tuna. Mix thoroughly. Chill.

Make six small pimiento flags, approximately one inch long. Use toothpicks for flag poles. Place pepper boats on salad greens. Fill with salmon or tuna mixture. Cover with Dill Sauce. Garnish with pimiento flags.

DILL SAUCE

¼ cup mayonnaise or salad dressing
½ cup sour cream
½ teaspoon dill weed
½ teaspoon sugar
½ teaspoon salt
Dash pepper

Combine all ingredients. Mix thoroughly. Chill. Recipe makes approximately 1½ cups of sauce.

EASY-DO FISH BARBECUE

2 pounds fish fillets, fresh or frozen
¼ cup melted fat or oil
¼ cup lemon juice
2 tablespoons grated onion
2 tablespoons chopped parsley
1 clove garlic, finely chopped
1½ teaspoons salt
1 teaspoon Worcestershire sauce
¼ teaspoon white pepper
Paprika
Seafood Sauce
Lemon wedges

Thaw frozen fillets. Cut fillets into six portions. Place fish in well-greased, hinged, wire grills. Combine oil, lemon juice, onion, parsley, garlic, salt, Worcestershire sauce and pepper. Mix thoroughly. Baste fish with sauce. Sprinkle with paprika. Cook about four inches from moderately hot coals for three to five minutes. Baste with sauce. Sprinkle with paprika. Turn. Cook for three to five minutes longer or until fish flake easily when tested with a fork. Serve with Seafood Sauce. Garnish with lemon wedges.

PIRATE'S COVE

FILLET OF SOLE
6 small or 3 large sole fillets, fresh or frozen
Instant Meat Tenderizer
¼ cup melted butter
Juice of 1 lemon
1½ teaspoons minced parsley
¼ cup sliced almonds
Sprinkle sole fillets evenly on both sides with tenderizer as you would salt. do not add salt. Place fish on broiler rack lined with aluminum foil for easy cleaning. Brush with mixture of the melted butter and lemon juice. Sprinkle with minced parsley. Place in preheated broiler four inches from heat. Total broiling time should be six to nine minutes. Do not turn. Do not overcook. Sprinkle with sliced almonds during last two minutes of broiling. Serve immediately.

LIME-BUTTER

BROILED TOMATOES
6 medium tomatoes
1 tablespoon lime juice
Instant Meat Tenderizer
1 tablespoon butter
1 tablespoon minced onion
1 cup dry bread crumbs
Wash tomatoes, cut off tops. Sprinkle cut surface of each tomato with fresh lime juice and tenderizer. In hot butter in skillet saute onion until tender. Stir in bread crumbs and tenderizer to taste. Spoon mixture over top of each tomato. Broil in preheated broiler, without turning, 15 minutes or until nicely browned.

STUFFED TROUT

4 brook trout, 8 to 10 inches each
4 tablespoons butter or margarine, melted
1 tablespoon lemon juice
1 teaspoon ground black pepper
1 teaspoon salt
1 cup celery flakes
1 tablespoon instant minced onion
1 tablespoon parsley flakes
1 cup water
1½ cups soft bread crumbs
1 egg, slightly beaten
1 teaspoon minced capers
1 cup water
Lemon slices for garnish
Watercress for garnish
Clean fish, leave whole. Combine butter with lemon juice, ¼ teaspoon of the black pepper and ¼ teaspoon of the salt; brush inside of each fish with mixture. Save remaining butter to use during baking. Combine celery flakes, instant onion and parsley flakes with third-cup water, let stand eight minutes to soften. Add bread crumbs, egg, capers, remaining salt and remaining black pepper. Stir until blended. Stuff fish. Close opening with skewers or sew. Arrange in large baking dish. Add third cup water. Brush each fish with reserved seasoned butter. Bake in preheated 450-degree oven 10 to 12 minutes or until fish is tender. Garnish with lemon slices and watercress.

It Was a Warm Summer Evening, after a hot day, and ice cream hit the spot, whatever the age. The Salvation Army Home League set up tables on the lawn at the Citadel and served the concoction from 4 to 7 p.m. Tuesday. At left, Ricky Loret shows his enthusiasm. A Lovelier You

By Mary Sue Miller

Fashion Future

When it comes to spotting the capes and coats over short best in fashion, some women pants long, below hip jackets seem to have a sixth sense. But, with long pants truth to tell, fashion clairvoyance is given to few. The quality is cultivated.

The process begins by watching the fashion news. In that

way you learn to spot authentic trends and then to single out those which best suit you. Excellence in dressing just naturally follows. Merely to get you on the fall wave length here are a few fashions with a strong signal.

— Hemlines — The mini is shorter than ever. The new midi falls to mid calf. betwixt there's that can your knee take it length.

— Dress and Coat Silhouettes — Big and little tents, close at top and easing into width. narrow, skinnny shapes coming in closer to the body. little girl shapes fulling from high waistlines.

— Suits — Long jackets. vests. divided skirts.

— Pantsuits — Midi length.

Beef Cuts Best Buy This Week

You will continue to find forequarter beef you best buy, says a Wisconsin consumer marketing specialist.

Chuck roasts, chuck steaks, ground beef and liver are good selections for economy-minded shoppers.

Pork continues at higher price levels. Pork prices are seasonally high, however, you will find attractive prices on pork roasts and ham. Pork prices are usually lowest in the fall.

Fryers, turkey and eggs are moderately priced. Both fryers and turkey are well suited to outdoor cooking.

Tomatoes
Lettuce supplies are larger and prices are nearer normal levels. Most salad items, such as radishes, leaf lettuce, cucumbers, green onions and peppers, are moderately priced. Tomato prices remain high and the supply is limited.

Potatoes are a little higher-priced and will hold at these levels until the new potato crop gets on the market.

There are still some berries on the market. Michigan blueberries are reasonable. Strawberry berries are mostly from California and are slightly higher-priced than have been.

Cantaloupe and watermelon are reasonably priced. Bananas are steady in price. Prices for peaches and nectarines are above a year ago since the supply is more limited. Quality of these fruits is good.

Variety at the produce counter is not as good as normal for this time of year. Many crops are late due to spring weather conditions. Home grown or local produce is not in full supply yet which keeps prices higher than normal. In about two weeks you should find more plentiful supplies and more attractive prices on garden items.

It Was a Warm Summer Evening, after a hot day, and ice cream hit the spot, whatever the age. Bishop Pike, Wife Divorced In California
SAN FRANCISCO (AP) — Esther Pike, wife of the Rt. Rev. James A. Pike, retired bishop of the Episcopal Diocese of California, has been granted an interlocutory divorce decree. She appeared Tuesday before Superior Court Judge Byron Arnold at a hearing which lasted five minutes. Mrs. Pike, 48, charged mental cruelty. Bishop Pike, 54, now theologian at the Center for Democratic Institutions in Santa Barbara, did not contest the suit. The couple announced last week they would end their 25-year marriage due to "outside factors beyond the control of either." Mrs. Pike was granted custody of their two minor children, Constance, 18, and Christopher, 17.

Zillmer Families Meet Sunday
CLINTONVILLE — The 27th annual Zillmer family reunion was held Sunday at Bucholtz Park. Mr. and Mrs. Arthur Brown and Mrs. Louis Ratzburg had charge of arrangements for the 51 members attending. Cards and horseshoes were played. Guests attended from Appleton, Greenville, Marion, Milwaukee, Clintonville, Green Bay, Neenah, Menasha, Woodruff, Bear Creek and Parsippany, N.J. Mr. and Mrs. William Zillmer, Marion, have charge of next year's arrangements.

we care

why should we guarantee other people's products?

If we didn't, we couldn't honestly say WE CARE. Could we?

You see, before any product is allowed on our shelves, we've checked it out pretty carefully.

We've checked the company that makes it.

We've checked to be sure the product is all the package says it is.

If you ever buy anything at A&P you're not happy with, you don't have to bother to write a letter to the company that made it.

Just tell your A&P store manager.

He'll give you your money back.

We'll get in touch with that company for you...and for us.

That's A&P's guarantee. No matter who makes it, if A&P sells it, A&P guarantees it.

Not every store can offer you a guarantee like that.

A&P can...and does.

Shouldn't A&P be your store?

Suggest Two New Schools As Controversy Solution

Ald. Pointer Asks 2 Four-Unit Structures Built on Southside, One Near New East High School

Hope for Decision

Special Meeting Of School Fiscal Board Scheduled

At the request of the board of public works, Mayor George Buckley has scheduled a special Monday night meeting of the Appleton School District's board of fiscal control to attempt to resolve the southside school site impasse.

The board, which includes Appleton's city council plus the town chairmen of Grand Chute, Harrison, Buchanan and Menasha, probably will have three choices to make:

- Construction of a new school on the Mielke property;
- Construction of a new school on Hoover Park property; or
- Construction of two new schools, one at Hoover Park and another east of the Mielke site in the vicinity of new Appleton High School East.

City Atty. David Geenen made the proposal for the special meeting.

"The submission to the fiscal board of control of both sites on their merits," Geenen said, "would seem to be the logical answer. I can't conceive of there being only one site for consideration."

Later, after hearing Ald. Roy Pointer (14) suggest the simultaneous construction of two southside schools, Ald. James Bethke (9), in whose ward the school or schools would be located, said, "I'll go along with the city attorney. Let's bring all the possible sites and let it be decided at the next meeting."

Geenen advised Buckley that all members of the fiscal board can be compelled to attend the special meeting.

BY DICK LYNEIS
Post-Crescent Staff Writer

When the fiscal board of control of the Appleton School District meets in a special session Monday night, voting members may have a new choice to make in the long-smoldering southside school controversy.

The new choice was proposed at Tuesday afternoon's board of public works meeting by Ald. Roy Pointer (14) who suggested simultaneous construction of two new schools on the southside.

Pointer's suggestion drew almost immediate support from Ald. James Bethke (9th) who represents the ward in which the new school or schools would be built.

Pointer, throughout the controversy over choosing a site for the new school proposed for opening in the fall of 1968, has been a supporter of a Hoover Park site. Bethke has backed the Mielke site.

Pointer's suggestion came after a long session involving members of the board of public works, interested aldermen, school board and school administration officials, city officials and Mayor George Buckley.

Water Skier Loses Life

Donald Kettner, 41, Kaukauna, Dies At Stevens Point

STEVENS POINT — A Kaukauna man died of a gastric disorder after water skiing on a lake near Rosholt about 5 p.m. Tuesday, according to the Portage County Coroner Joseph Bodi-Jaw.

Donald Kettner, 41, 109 E. 11th St., Kaukauna, was pronounced dead on arrival at St. Michael Hospital in Stevens Point. Greenwood Funeral Home, Kaukauna, is handling funeral arrangements.

Kettner was vacationing on Collins Lake 3½ miles south-west of Rosholt with his family and friends. He was described as an experienced water skier.

Monday night and again Tuesday morning he complained of chest pains. His son, James, was driving the boat and pulling his father who was skiing. When Kettner released the rope on a turn, Mary Lotzer, 14, 397, media, Cleveland St., Menasha, a passenger, jumped into the water and attempted to get him into the boat.

She told authorities Kettner was still breathing at the time. After her attempt to get him into the boat failed, they called for assistance. Douglas Schramm, 32, 953 Grove St., Menasha, assisted in getting Kettner into the boat.

Kettner was taken to shore and received first aid treatment before the ambulance arrived. Kettner was employed as a machine tender at Thilmany Pulp and Paper Corp. at Kaukauna.

Mandamus Writs Served on Board

Geenen Doubts Legality of Action Forcing Purchase of Mielke Site

Writs of mandamus were served today on all members of the Appleton School District's fiscal board of control.

The writ, prepared by Town of Grand Chute attorney Don Herring and signed by Circuit Court Judge A. W. Parnell, commands the board to certify the approval of the purchase of the Mielke property for a southside elementary school site.

The writ also commands that the board "promptly meet and redetermine the question of the Mielke school site based upon the 1966 equalized valuations of the respective municipalities involved."

Appleton Mayor George Buckley is the presiding officer of the board which includes the city's 20 aldermen, plus the town chairmen of Grand Chute, Menasha, Harrison and Buchanan.

If the demands made in the writ are not met, the board must show cause to the contrary in a Circuit Court appearance at 9 a.m. on Aug. 21.

Herring started the legal action on instructions from Grand Chute Town Chairman Thomas A. Thorson.

The main point which Herring makes in the writ is that the town chairmen and each member of the city council is entitled to one vote for each full \$200,000 of equalized valuation in the school district.

Herring maintains that votes taken on purchase of the Mielke property during June 21 and July 5 board meetings were erroneously computed and tabulated because 1965 equalized valuation figures were used.

Quorum Present

He also said that a quorum of the fiscal control board was present on June 21 and a majority of the quorum passed and approved the purchase of the Mielke property. The vote at the meeting was 385 for purchase of the Mielke property.

There were 636 opposition votes, while 333 votes were absent.

Appleton City Atty. David Geenen, who is legal adviser to the fiscal control board, said, "I'm not at all concerned" when he learned of the writ this morning.

He quoted Section 62.113 of Wisconsin Statutes which says, in part, "A majority of all the members should be necessary to a confirmation."

Not Membership Majority

"My ruling," Geenen explained, "was and still is that while there was a majority of the quorum voting in favor of the purchase, there was not a majority of the membership. There are a total of 1,875 votes on the fiscal control board; a majority would have to be 938 votes."

Geenen also said he doubts whether a legislative body can Turn to Page 5, Col. 1

Hearings Set For Men in Arson Plot

Two From Appleton To Appear in Court Thursday Afternoon

Two Appleton men, named in an indictment of plot with a preliminary hearing at 2 p.m. Tuesday in Outagamie County Court Branch 2.

Judge Gustave J. Kober Tuesday afternoon set bonds at \$1,500 for W. J. Culver, 37, Country Estates Trailer Camp, and Albert B. Smith, 42, 1212 N. Lemnawah St. Both men appeared for arraignment with their attorneys.

The men charged with solicitation to commit arson, were taken into custody at their homes late Tuesday morning by Outagamie County authorities.

Culver and Smith allegedly had made arrangements with a third Appleton man July 19 relative to setting fire to a house Culver owned in Menominee County, Michigan. The alleged contact was made in the Town of Grand Chute, according to authorities.

The alleged arson plot was intended to defraud the insurer of the Michigan home, according to the charge brought by Dist. Atty. Nick F. Schaefer.

Investigation was made by county investigators and State Fire Marshal Earl Schwalbe.

Smith told the court Tuesday that he formerly operated an Appleton supper club, but is now unemployed.

Welfare Director Endorses Closing of Present City Home

Ehricke Feels Appleton Should Consider New Construction

Welfare Department director Edgar Ehricke should begin on Jan. 1, 1969, a new survey of the city's welfare needs, he said.

Ehricke made his recommendation Tuesday night during a meeting of the city council's welfare and ordinance committee.

He also recommended that the Appleton Council should consider replacement of the City Home with new construction of from 50 to 75 beds.

Ehricke's thinking, which was formally presented to the committee in the form of a letter to its chairman Ald. Richard H. Huisman, (1st), was a result of a previous request from the committee for his feelings about the home's future.

He said "phasing out" of the

recommendation for the council by the Aug. 16 meeting.

We wish to bring to your attention that our survey of September, 1966 revealed that there were nine other municipalities that owned and operated nursing homes within the state of Wisconsin, eight of which were of new construction.

There is no doubt in my mind the latter states, that a need for such a facility continues to exist in Appleton and that if a new construction of a City Home was approved, it would operate on a self-sustaining basis.

Sprinkle Restrictions Remain Despite Rain

Although more than 55 inches of precipitation hit the Appleton area this morning, sprinkling restrictions imposed by the water department Saturday remain in effect until further notice.

City ordinance allows residents of even-numbered homes to sprinkle on even-numbered days between 5 and 8 p.m. Residents of odd-numbered homes may sprinkle on odd-numbered days between the same hours.

Appleton, Kaukauna Homes Get Census Questionnaires

Most Appleton and Kaukauna families in one, two and three-family dwellings have or will, with the cooperation of the Wisconsin Bureau of Civil Defense and Disaster Control, has turned over to the Post Office department about 600,000 questionnaires for delivery to residents watch for the official envelope, which will contain 10,000 or more and within much of the metropolitan areas surrounding Madison and Milwaukee.

State-Wide Survey

The Bureau is taking a state-wide survey of homes to inform occupants of the amount of fallout protection their homes provide. Households outside the mail areas will be visited by Census Bureau interviewers.

This Home Fallout Protection Survey is being conducted for

Columbus Club Agent

Aldermen Skirt Issue Of Women Bartenders

Aldermen serving on the Appleton Council's welfare and ordinance committee may have skirted the question of whether women can tend bar in Appleton.

The issue came up Tuesday night when the committee was asked to approve a "transfer of agent" request for the Columbus Club, at 1525 W. Second Street.

The new agent, or manager, of the club would be Mrs. John (Wilma) Losselyoung. Since the Columbus Club holds a class B liquor license, Mrs. Losselyoung, as manager, would be allowed to attend bar.

That she would be allowed to tend bar was brought out by City Atty. David Geenen.

Allowed to Bartend

"She would be allowed to bartend," he said, "since she is responsible as the corporate licensee. There would be nothing in state statutes or in city

ordinances which would prohibit her from tending bar.

A fear that all sorts of Appleton tavern-owners might start naming women as "agents" was voiced by Ald. Orville A. Strutz (17th).

Geenen told Strutz not to worry because only corporations can have agents and he said he doubted if many Appleton tavern operations were corporate setups.

Geenen apparently didn't convince Strutz who cast the only negative vote in a 2 to 1 recommendation for allowing the transfer.

Committee chairman Ald. Richard Huisman (1st) and Ald. George Schwarzbauer (10th) voted for the transfer.

One committee member, Ald. William H. Wachtendonk (3rd) abstained. Wachtendonk said he had a "conflict of interests" because he's a member of the Columbus Club.

Channel 11's Colonel Caboose

Russ Widoe to Manage In-School Television

GREEN BAY — Russ Widoe, Channel 11's "Colonel Caboose," has been named managing director of Northeastern Wisconsin In-School Television (NEWIST). A dinner in his honor was given by WLUX-TV, Tuesday night at The Forum.

The announcement was made by John David, coordinator for Cooperative Educational Services Agency No. 9 (CESA). David represents the interim board of directors of NEWIST.

Widoe, the holder of a likeable old railroad man and bachelor of arts and masters degree from Northwestern University, has had years of teaching experience at all levels.

Widoe will leave the Colonel Caboose Bozo Big Top Show on Aug. 1 to begin his new duties with in-school television which will be carried over Channel 11 starting in September. The popular afternoon children's show will continue weekdays as the "Bozo Big Top."

Popular Show

James Tomlin, general manager of Channel 11, said "we are happy that NEWIST has selected Widoe as its director to inaugurate the educational program which will benefit the thousands and thousands of youngsters in northeastern Wisconsin."

"Although we are sorry that he will be forced to leave the Colonel Caboose role which he has made so popular, we are grateful for his assistance in establishing Bozo Big Top as a popular show for the youngsters," Tomlin said.

One of the founders of NEWIST, Widoe will direct the program which calls for five hours of telecast instructional material per week. Programs in the areas of mathematics, science, language, arts, social studies, music and art will be shown.

More Expected

In addition, Widoe is producing and teaching television classes in third and fourth

More Than 10 Years of Service to radio and television in northeastern Wisconsin and Upper Michigan were recognized at a special program Tuesday in Green Bay. Russ Widoe, better known to children and parents alike as Col. Caboose, leaves his role as a children's personality and enters educational television with Northeast Wisconsin In School Television. Widoe was presented with a plaque by James Tomlin, general manager of Television 11, for his services.

Youth Fined in Beer Incident of Year Ago

An 18-year-old Appleton youth who outran a policeman late Tuesday morning and was later arrested when he came to the sheriff's office in connection with an accident in which he was involved Sunday night, was fined \$100 and costs or 48 days in jail this morning after he pleaded guilty of a charge brought nearly a year ago.

Robert Criscione, 1513 N. Meade St., was charged by Outagamie County authorities last August with buying and furnishing beer for four youths, 16 and 17 years old. The charge was brought as a result of police investigation of a beer party in a field along McCarthy Road, north of State 76, the evening of Aug. 25.

A warrant had been issued last August for Criscione's arrest, but county police were unable to find the youth. A county investigator read in the Post-Crescent Monday that Criscione had been injured in a motorcycle accident in Combined Locks Sunday evening.

Learning that Criscione was to be released from St. Elizabeth's Hospital Tuesday morning, the investigator went there to get him. However, when Criscione saw the investigator, he fled through the hospital lobby, out a door, and down the street.

Chased Youth

The investigator, who chased the youth on foot, then "requisitioned" a ride in a car, telephoned a description of the youth to his office, then gave up the pursuit which had covered several blocks near the hospital.

Just before noon, Undersheriff Calvin Spice was telling an Appleton detective about the incident while the pair was at the sheriff's office. The detective pointed to a woman standing at the sheriff's department counter and said he believed it was Criscione's mother.

A tall youth with the woman matched the description of the youth the investigator had chased. Spice placed Criscione under arrest after the youth admitted he had just fled from the investigator. He said he was at the office to make out a report on the Sunday night accident.

Placed in Solitary

A county investigator told the court that Criscione, as he was being taken to a jail cell Tuesday, grabbed a table fork from a meal tray and "attempted to stab himself in the stomach." He was restrained by jailers and placed "in solitary confinement," the court was told.

Criscione first appeared in court Tuesday afternoon and pleaded guilty but after hearing the circumstances of the case, County Judge Gustave J. Keller sent the youth to jail until 9 a.m. today, saying, "I want to think this over."

An investigator told the court the Criscione had bought a half barrel of beer for the party and caused a noon-hour traffic jam about 12:10 p.m. today at Badger and College avenues.

Gloria Fulcer, 22, 907 W. Roberts Ave., driver of one car, was taken by ambulance to Kaukauna Community Hospital with head injuries. Appleton police said the woman was unconscious immediately following the accident, but regained consciousness a short time later.

She was northbound on Badger when her car collided with a car driven by Henry Fosco, 64, route 1, Waupaca, who was southbound on Badger, making a left turn onto College. He was not injured.

The Fulcer car ended against the curb, nearly completely blocking one lane of College Avenue, which had an especially heavy flow of traffic as a result of the downtown sidewalk sale.

Appleton Woman Injured in Noon Auto Accident

A two-car accident resulted in injury to an Appleton woman and caused a noon-hour traffic jam about 12:10 p.m. today at Badger and College avenues.

Gloria Fulcer, 22, 907 W. Roberts Ave., driver of one car, was taken by ambulance to Kaukauna Community Hospital with head injuries. Appleton police said the woman was unconscious immediately following the accident, but regained consciousness a short time later.

She was northbound on Badger when her car collided with a car driven by Henry Fosco, 64, route 1, Waupaca, who was southbound on Badger, making a left turn onto College. He was not injured.

The Fulcer car ended against the curb, nearly completely blocking one lane of College Avenue, which had an especially heavy flow of traffic as a result of the downtown sidewalk sale.

Labor Council Receptive to Fund Goal

NEENAH — Labor leaders on the Twin City Labor Council Tuesday indicated support of Neenah-Menasha Community Chest plans for increasing the fair-share giving program from 20 minutes to 40 minutes a month.

A report on the plan was given to the council by its representative on the Community Chest board with no objections from the council.

A complete report and explanation of the new fair-share plan is expected from the Community Chest in about a week.

Delay Action on Proposals

Ambulance Operator Objects to Ordinance

Larry Steidl, operator of Larry's Ambulance Service, who last week said that Appleton's proposed ambulance ordinance "stinks," echoed his sentiments Tuesday afternoon at a meeting of the city council's public safety committee.

As a result of his objections to certain parts of the proposed ordinance, further action on the measure was delayed for two weeks.

In contrast to Steidl's position on the model ordinance, Aid Arthur Hoolihan (11th), a safety committee member, said Tuesday he had been authorized by Harold Linzmeier, operator of Lindy's Ambulance Service, to report that Linzmeier "is for everything in the proposed ordinance." Linzmeier was out of town Tuesday afternoon, Hoolihan said.

Steidl's main objection to the proposed ordinance was a provision calling for a 21-year-old minimum age limit for ambulance drivers and attendants.

Hiring Problem

"If they're old enough to fight in wars, they're old enough to be on an ambulance," Steidl contended. He said that he would have difficulty hiring men on a "scheduled basis" as required in the model ordinance if the attendants have to be 21 or older.

Ald. John Ayers, (12th), committee chairman, told Steidl that the main reasons for the 21-year-old provision were that "men 21 are more mature" and there was "hearsay" about problems with handling of patients by young attendants, and that there reportedly have been "remarks made about patients in cars" by some of the "real places," Ayers said. He said he has been asked by did not refer to any specific Mayer Kenneth Holmes to draft ambulance service in making an ordinance and will do so.

Neenah aldermen enacted a curfew last week and are awaiting the ordinance would have corresponding action in Menasha.

Thief of Police Chief's Car Gets 3-Year Sentence

OSHKOSH — County Judge James V. Sitter Tuesday sentenced Cornelius Warrington, 22, Chicago, to spend up to three years in the state prison at Waupun for stealing the car of Mrs. Lawrence Malouf, the wife of the Neenah police chief, June 20.

Warrington was also sentenced to one year in prison for escape from authorities. The two sentences are to run consecutively.

His brother Donald, 26, was sentenced to not more than one year in the Green Bay Reformatory for the same escape.

At the time of these offenses, the Warringtons were working at the Neenah Foundry under Huber Law privileges, but failed to return to jail after work.

They were each sentenced to 90 days in the county jail May 2 for stealing a stereo guitar and case worth \$535 April 7 from a station wagon parked at an Oshkosh motel.

Chief Lawrence Malouf heard the car engine racing in his driveway about 12:30 a.m., took a quick look out the window and called the police station as it pulled away.

Neenah officers stopped the car and driver two blocks later.

The keys had been left in the car.

Twin Cities Fund Drive Hires Leader

NEENAH - MENASHA — F. Dwight Donelson, Appleton, was named the first full-time executive director of the Community Chest of Neenah-Menasha Monday.

He will take over the position on Aug. 1, at the Chest office at 110 N. Commercial St., Neenah.

The organization will have its first full-time director in Donelson, since in recent years it has shared the services of Arthur Malin with Appleton.

Malin headed the Community Chest in Appleton on a full-time basis since May 31.

Donelson served as a scout executive of Valley Council, Boy Scouts of America, at the headquarters in Appleton from 1958 to 1960. He had been active in directing the professional, clerical and camp staffs of the Council and its various fund-raising, public relations, budgeting and membership activities.

He is a 1942 graduate of the University of Michigan and served as a district scout executive in Detroit and in Rockford, Ill., before coming to Wisconsin.

Donelson's appointment followed a number of interviews and correspondence with each of the four boards which were organized by Stanley Stevens, Neenah, chairman of the four boards and committee.

Fire Set in Bathhouse Of Outdoor Swimming Pool at Kaukauna

KAUKAUNA — One person seriously broke into the Kaukauna outdoor swimming pool at Dodge Street early this morning and apparently set a fire in the bathhouse.

The fire department was called at 5:20 a.m. to extinguish burning towels, sweatshirts and a cabinet after city police found the building filled with smoke.

Entry was gained by breaking a window in the rear door. Apparently nothing was taken.

A state fire marshal has been called to continue investigation.

X-Way Plan Funds Released

Winnebago Okays \$7,500 for Work on Tri-County Project

OSHKOSH — Winnebago County supervisors Tuesday approved without dissent a bill for \$7,500 for planning work on the Tri-County expressway system. The county had been appropriating \$6,500 in 1964 for its share of the estimated planning costs which eventually came to \$14,000.

A resolution to pay the bill was tabled at the June meeting of the county board and sent to the special Bridge Committee for investigation. Last Friday, the committee, after checking its share of the estimated planning costs which eventually came to \$14,000, agreed the work had been ordered and recommended payment of \$6,500.

The U.S. 41 bridge over Lake Koshong was back on the floor of the board Tuesday.

The U.S. 41 bridge over Lake Koshong was back on the floor of the board Tuesday. Eugene Williams, one of the two hospitals. Referrals there was anything the county could still do to get the state to change its mind on the type of bridge construction.

Box Full of Money Returned to Police, But Sender Anonymous

NEENAH — Police officers returned a box full of money to the sender Tuesday.

The box, which was found on the street, was turned over to the police. The box was found on the street, was turned over to the police. The box was found on the street, was turned over to the police.

Young Hobby Club

Win This Local Contest to Try for a National Prize

BY CAPPY DICK

How many fish are in the picture?

Count them and try for a prize!

For the 5 most original correct entries from boys and girls of the Fox Cities area I will award a leathercraft packet containing the materials to use in making a Slim Jim Key Case — pre-cut leather, metal key post, closure snaps and directions for assembling the case.

World. Each set consists of 12 books. Competing for these sets of books will be the local prize-winning entries from all the cities where this column is published.

The contest is easy to enter. All a young reader need do are these six things:

- (1) Count all the fish in the picture printed above;
- (2) clip out the picture and paste it on a sheet of paper;
- (3) print the total number of fish beneath the picture, along with the contestant's name, age, address and Zip number;
- (4) decorate the entry in any neat, original way, using paints, crayons or cut-outs;
- (5) address the entry to Cappy Dick's Midwest "True-to-Life" Contest at the Post-Crescent and (6) mail it before midnight of day after tomorrow.

Name of the prize winners will be published here after they have been selected by the contest judges. Judges' decisions will be final. Prizes will be delivered by mail to the winners.

All contest entries become Cappy Dick's property and none can be returned.

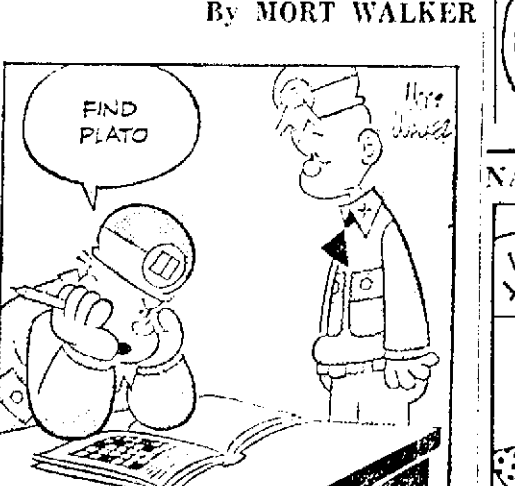

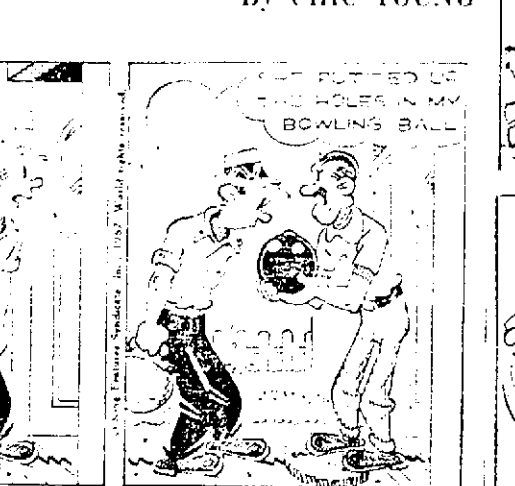

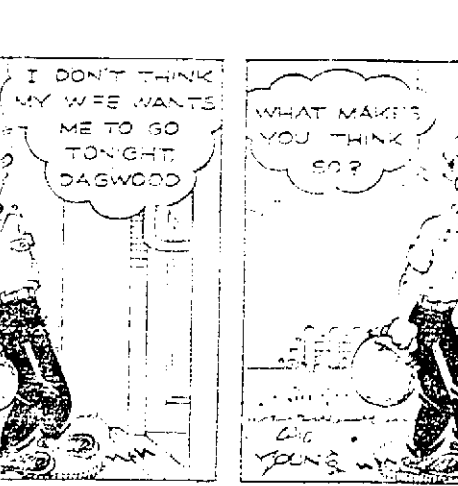

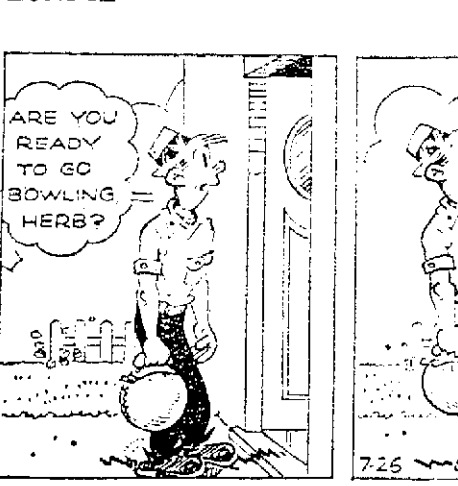

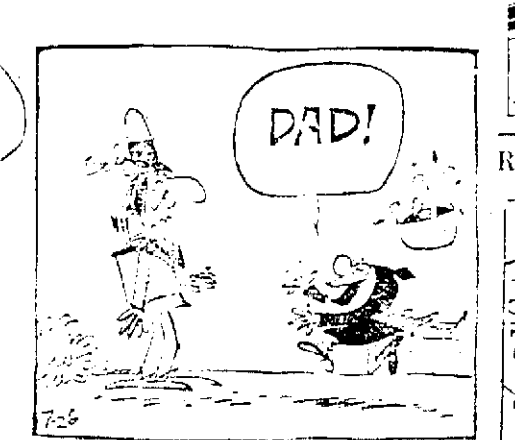

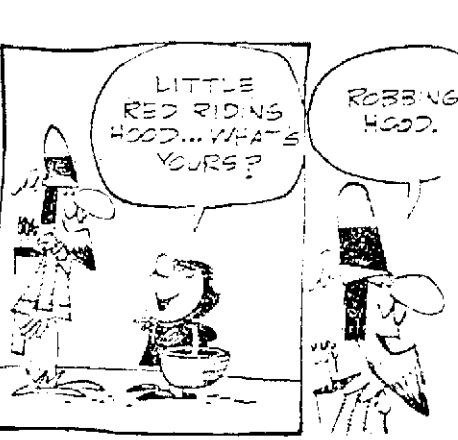

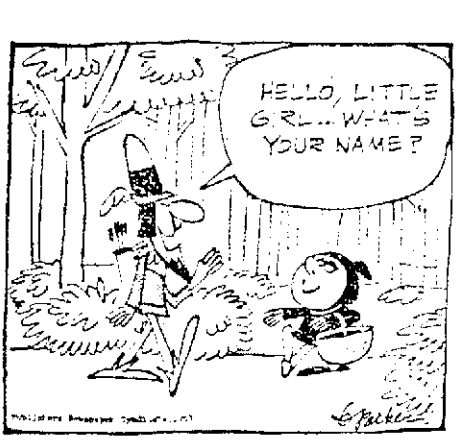

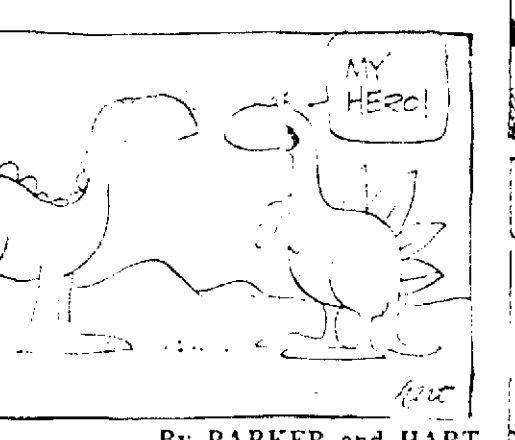

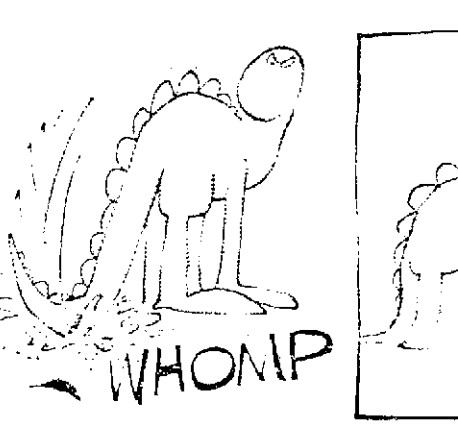

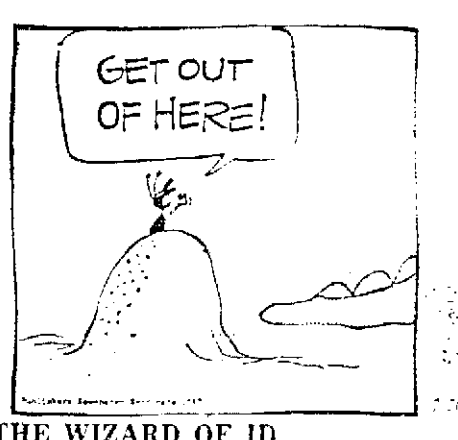

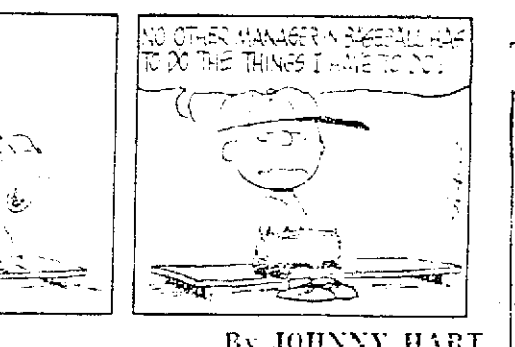

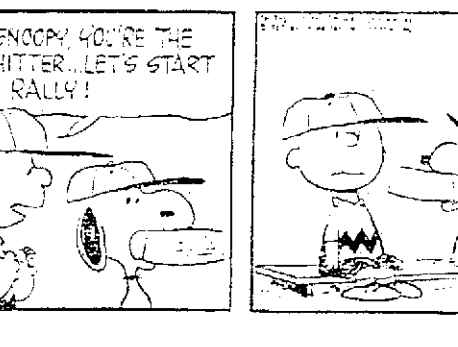

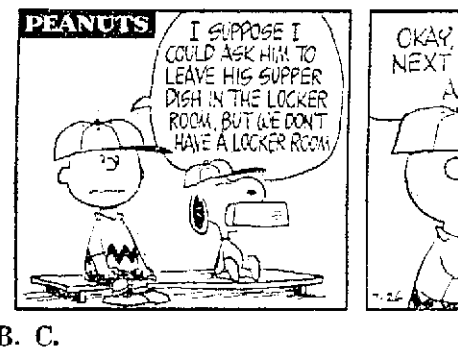

Tomorrow: Directions for compiling a local travel guide!

Kubiak Leads Qualifiers in State Tourney

Has 144; Defending Champ Iverson Also Qualifies With 150

WAUKESHA (AP) — Distance-hitter Don Iverson of La Crosse began defense of his Wisconsin amateur golf crown today as he led a field of 64 qualifiers, including medalist Leo Kubiak of Milwaukee, into the opening round of match play in the 66th annual state tournament.

Iverson, former small college national champion, met Don Warren of Milwaukee in the contest that opened the four-day run to the state throne.

Warren shot a 79-76 for a 155 in the qualifying rounds while Iverson had a 78-72-150.

Kubiak, who has never gotten past the quarterfinals, appeared to be a distinct threat to Iverson after a 70-74 showing that gave him low qualifying score of 144.

The former Bowling Green basketball star has the advantage of playing on his home Merrill Hills course where the put is 72.

Kubiak drew Andy North of Madison, the Wisconsin high school titlist, as his opening day opponent. North qualified with a 79-76-155.

Behind Kubiak in the medal chase were Tom Southamer of Milwaukee with a 73-72-145 and George Madson of Racine with a 74-71-145.

Willard Wendt of Lake Mills was alone at 72-71-146 while Nick Demos of Racine was behind him with a 75-72-147.

Harry Simonson of Madison, a four-time loser in the finals, was at 148 along with Mike Axtanas, Waukesha.

Ties Iverson

Former champion Dick Sacher of Milwaukee had a 150 to tie with Iverson, Don Edwards of Waukesha and Fred Gage of Madison.

The hottest round of the two-day qualifying was turned on Tuesday by Steve Zant, a 19-year-old boy from Fremont, who Zant carded a 69 on rounds of 76-63. Zant had an 82 Monday and despite his record Tuesday was defeated at 147 with Madison's Warren Bailey and J. P. Sullivan of Hammond.

A score of 150 was needed to qualify. The better ones had over 100. The 150s included former champion R. H. Sauer of Milwaukee, tied at 100.

John was eliminated in the play-off that went to Bob Solberg of Milwaukee and Mike Simonson of Madison.

Simonson, who had a 150, was making his first start in the Little Chute team.

The field of 64 returned today. The original field of 127 was to be down to 64 by the day's end.

Little Chute now plays the Green Bay Packer Traning Camp in the next round at Madison Saturday. Team manager Roger Gertis has indicated that Neumeier will probably anchor the starting nod for the team.

Opened Seting

The winners opened the season with a run in the first inning when Gertis struck after one out and romped all the way home on a double by Henry King.

Shullsburg was blanked until the sixth when three of the boys were hit by a pitch in one run. Key blow was Bob Solberg's double.

The winning run for Little Chute came in the last of the game.

Ohio Valley Regionals at Anderson, Ind.

Appleton Babe Ruth Team Blessed With Good Depth for Tournament

BY TIM PETERMANN
Post-Crescent Staff Writer

Depth may be the biggest asset the Appleton Babe Ruth team takes into the Ohio Valley Babe Ruth Regionals at Anderson, Ind., this weekend according to manager Herb Horn.

The Appleton team will leave tonight for the double-elimination tourney which begins Saturday. Kentucky meets Indiana, Michigan encounters Indiana and host Anderson plays Ohio in the opening round. Appleton, received a first round bye and will meet the Kentucky-Illinois winner Sunday at 2 p.m.

Wisconsin is the defending champion in the Ohio Valley with a 350 cubic inch Olds on the tourney last year and advanced to the Babe Ruth World Series.

Ralph Salyer Entered In Road America 500

ELKHART LAKE (AP) — Ralph Salyer, one of the nation's top road racers, has entered Wisconsin representative, Re-Sunday's Road America 500.

Salyer, 45, of Hammond, Ind., will drive a McKee-Crosby with a 350 cubic inch Olds on the tourney last year and advanced to the Babe Ruth World Series.

Other new entries include Sam Posey, 23, Sharon, Conn., who will be driving a Caldwell prototype with a 356 cubic inch Chevy engine.

Little Chute Downs Shullsburg, 2 to 1

Dan Neumeier Hurls 4-Hitter, Peerenboom Drives in Key Run

MADISON — Lee Neumeier, seventh when Leo Neumeier, brother of Dan and catcher, pitched in the first inning, opened the game with a sacrifice fly in frame with a double, got to third when Dick Zeratsky dropped a line posted a 2-1 victory for Little Chute in the opening round of the Wisconsin State Baseball Tournament at Madison Tuesday night.

Neumeier, who just turned 19, was making his first start in the Little Chute team. He pitched out 12 batters and walked two.

Little Chute now plays the Green Bay Packer Traning Camp in the next round at Madison Saturday. Team manager Roger Gertis has indicated that Neumeier will probably anchor the starting nod for the team.

The Green Bay Packer Traning Camp is in full swing as rookies and veterans prepare for the annual intra-squad game Thursday night at Lambeau Field. In the top picture, veteran defensive end Lionel Aldridge takes a breather from drills. The lower picture shows flanker Bob Long ready to gather in one of two touchdown passes which he caught in Tuesday's workout. (Post-Crescent Photos)

About Turning Point This Year, Says Long

Packer End Wants To Show What He Can Do for Team

Post-Crescent News Service

GREEN BAY — "Tired legs and sore feet."

Helmet dangling limply from his right hand, rangy Bob Long offered this capsule description of his physical state as he

warily wended his way down the green-carpeted corridor to the Packers' dressing room late Tuesday afternoon.

Only 72 hours removed from a service stint at Fort Leonard Wood, Mo., the fleet flanker had just finished his second day in coach Vince Lombardi's Spartan

camp, invariably strenuous for the unprepared.

"After wearing those doggone combat boots for five months from reveille at 4 or 4:30 in the morning until 9 o'clock at night, it's quite a change," Long, dedicated to winning a starting assignment this season, noted with a dry smile. "My feet are in shape for standing in chow line, and that's about it."

No Problems of Locomotion

Be that as it may, there was no evidence that the personable Vandergrift, Pa., native was having problems of locomotion — at least the Pack's highly accomplished defensive outfield apparently didn't detect any.

Flakery, as Pfc. Long has come to be known within the closely-knit Packer family, twice maneuvered into the wide open spaces to gather in "touchdown" passes from long ball artist Zeke Bratkowski to garnish a pass scrimmage which climaxed the afternoon workout.

The first came when "The Brat" lofted the leather into Long's grasp on a post pattern, which saw the ex-University of Wichita basketball luminary make it look easy by cantering into a stride-and-a-half lead on his defender as he sprinted goalward.

Fruitless Pursuit

His second all-the-way effort was slightly more complicated. Hit by Bratkowski as he swung across the middle to his left on a trial pattern, he veered to the outside and streaked the dis-

Huge Crowd of 7,278 Sees Foxes Win in 11th, 4 to 3

Relief Artist Willie Hooker Drives in Winning Run With Single; Dubuque Here Tonight

BY RON WITT

Post-Crescent Staff Writer

"The Hook" hit a slice and sent a new all-time record Goodland Field throng of 7,278 fans home happy Tuesday night, as Appleton nudged the Burlington Bees, 4-3, in 11 innings to keep the Foxes in first place in the Midwest League standings.

Appleton will put its one game lead over second-place Dubuque on the line tonight when the Packers move into Goodland for the start of a 3-game series. Game time is 8 p.m.

Willie "The Hook" Hooker, who was batting just .170 with three hits in 17 times at bat, slapped a bases-loaded single to right field with one out in the bottom of the 11th inning to bring Appleton its 17th win of the season and its fourth victory against seven losses.

The Foxes' most active relief pitcher came on for starter Al Fitzmorris, who had allowed the

Bees to tie the score at 3-3 in the ninth when he threw a wild pitch that plated Larry Vlasin from third base. Fitzmorris pad sailed through the first six innings without giving up a hit.

Massive Crowd

The massive "AAL Night" crowd filled every available grand stand and bleacher seat and spilled over on to the areas down both foul lines. The former attendance mark of 7,118 was set on "Piggly Wiggly Night" on Aug. 4, 1964, when Rick Reichardt and the Quad Cities Angels came to town.

While Fitzmorris was hand-cuffing the Bees at the start, Burlington southpaw Greg Con-ger avoided trouble until the fourth when the Foxes scored three times on four hits. All the runs were unearned in the rally tying run to the final out in a 4-3 St. Louis victory.

And how did the Cardinals react? Calmly, to say the least. "Maxie (shortstop Dal Maxvill) told me to throw so I threw," said Julian Javier, who relayed the ball in from second, with an authentic shrug. "I wasn't surprised."

"I didn't think it was such a great play," yawned catcher Tim McCarver, who made the tag at the plate after Ernie Banks had already scored on the play. "I mean the ball was right there so what's the big deal?"

Only Bob Tolan, who at 21 is in his first full year with the Cards and who started the play after retrieving Al Spangler's single in center field, showed anything approaching emotion.

Prayers Answered

"After I made the throw," said Tolan, "I looked up and saw him trying to score and I said to myself, 'Oh, God. I hope he makes a good throw to the plate.'"

In other less nerve-wracking National League action Tuesday night, Philadelphia pounded Houston 12-7. San Francisco edged New York 5-4. Atlanta nudged Cincinnati 1-0 and Los Angeles beat Pittsburgh 3-1.

The Cubs, though understandably depressed at blowing a chance to savor first place without any company, maintained they made the right play.

"We got a few this year in the same situation," third base coach Pete Reiser insisted. "We've been during the infielders and the outfielders all year. We just didn't make it this time."

Manager Leo Durocher agreed, saying, "The throw didn't have to be there. It could have been there."

State Gymnast Leads U. S. in Pan-Am Games

WINNIPEG (AP) — The U.S. men's gymnastics team again led in the second day of compulsory exercises at the Pan-American Games.

Tuesday's round covered vault, parallel bars and horizontal bar.

Fred Rothlesberger of Madison, chalked up the highest individual score of 28.25 points in leading the U.S. men to a total of 137.50 points.

White Sox, Twins Pocket \$30,000 From Exhibition

MILWAUKEE (AP)—The Chicago White Sox and the Minnesota Twins netted at least \$30,000 each in the Monday night exhibition game here, the Milwaukee Sentinel said today.

The exhibition, won by the Twins 2-1, drew a record crowd of 51,144 fans. It was the first game between major league baseball teams in Milwaukee since the departure of the Braves for Atlanta after the 1965 season.

The sponsors of the game, Milwaukee Brewers Inc., netted about \$25,000, the Sentinel said.

The White Sox and Twins divided 75 per cent of the gate revenue. The Brewers got 25 per cent and 28 per cent of the gross concession revenue.

Nonchalant Cards Squeak Past Cubs On Clutch Throw

Jarvis Fires 2-Hitter, Braves Win; Phils Club Houston Behind Allen

By RON RAPOPORT

Associated Press Sports Writer for a tie."

The St. Louis Cardinals, once again perched atop the National League, are also bidding fair to lead the league in nonchalance. The Cards opened a critical three-game series with the remarkable Chicago Cubs Tuesday night with both teams tied 0-0.

A brilliant relay play from center field to the plate transformed Ted Sav- age from the potential Chicago tying run to the final out in a 4-3 St. Louis victory.

And how did the Cardinals react? Calmly, to say the least.

"Maxie (shortstop Dal Maxvill) told me to throw so I threw," said Julian Javier, who relayed the ball in from second, with an authentic shrug. "I wasn't surprised."

"I didn't think it was such a great play," yawned catcher Tim McCarver, who made the tag at the plate after Ernie Banks had already scored on the play. "I mean the ball was right there so what's the big deal?"

Cubs' Coach Reiser Made Right Call When He Sent Savage Home

By CHARLIE BAROUH Associated Press Sports Writer ST. LOUIS (AP) — Everybody goes home Tuesday night said third base coach Pete Reiser made the right call when he sent Ted Savage home in the ninth inning.

"I think they'd do the same thing over again," said Bobby Tolan, whose throw from the outfield to relay man Julian Javier helped nail Savage at the plate and preserved the Cardinals' 4-3 victory over the Chicago Cubs Tuesday night.

"It looks bad now but it was a good play," Tolan said. The Cubs went into the ninth on the short end of a 4-2 score. Ernie Banks singled to lead off the inning and Savage pinch-hit for Clarence Jones, was outfield to relay man Julian Javier helped nail Savage at the plate and preserved the Cardinals' 4-3 victory over the Chicago Cubs Tuesday night.

Record Crowd Watches Foxes Win in 11th

CONTINUED FROM PAGE 9

in the ninth. After Vlasin walked to lead off, Fernandez hit a made-to-order DP grounder to Singleton, but he couldn't find the handle. Greene moved both runners up on a follow-up Hunter at first.

Brooks got Vlasin home on a long sacrifice fly to Ortiz in center, and then with an RBI count on Pete Koege's hit. Koege threw one wide of home to knot the count at 3-3.

Hooker faced a crisis in the two innings. He gave up two harmless singles and posted four strikeouts. Kerry Compton was back over for Frank Mulgan in the ninth. Savage loaded to force, guys got out in a bases-loaded situation in the ninth and ninth inning.

Tried to Sacrifice

By in the 11th. Koege began things by getting on a complete error of a little over to the mound. Compton made another mental error when he tried to throw to second as for Monte tried to sacrifice.

Chuck Brinkman's hit cut the lead to one. Koege's hit cut the lead to one. Koege's hit cut the lead to one.

Not This Time

We got a good look at the Cardinals' defense when the Cubs had a chance to score in the ninth. Pete Koege's hit cut the lead to one. Koege's hit cut the lead to one. Koege's hit cut the lead to one.

He Cardinals scored three runs in the first inning. Rob Gardner's hit added to the lead. The Cardinals scored three runs in the first inning.

Packers Rock WR Hurlers in 8-4 Triumph

By Associated Press Sports Writer GREEN BAY (AP) — The Green Bay Packers defeated the Chicago Bears 8-4 in a thrilling game Tuesday night at Lambeau Field.

The Packers' offense was led by quarterback Bart Starr, who threw for 200 yards and three touchdowns. Running back Jim Taylor added 100 yards and two touchdowns.

The Bears' defense was led by defensive end George Halas, who made several key plays. Quarterback Jim Plunkett threw for 150 yards and two touchdowns.

Don January in Pro-Am Prelude To Minnesota Test

MINNEAPOLIS, Minn. (AP) — National PGA champ Don January will head a host of pro golfers taking part in today's pro-amateur prelude to Thursday's tee-off for the \$100,000 T&J No 1 Minnesota Golf Classic at Hazletne golf course.

Other big name pros after the \$20,000 first-place money include last year's winner Bobby Nichols, Don Cherry, Gene Littler, Julius Boros, Doug Sanders, Ken Venturi and Don Massengale.

January edged Massengale 69 to 71 in winning the PGA crown Monday at Denver's 7,436-yard Columbine course.

January, who won the 1961 classic, should be in good form for Hazletne's opening range of 7,200 yards. The longest holes on the par-72 course will be No. 11 at 603 and No. 2 at 600.

Vikings Release Preston Carpenter

Namath Strains Knee Tendon

By TED MEIER Associated Press Sports Writer San Diego (AP) — The San Diego Chargers released Preston Carpenter Tuesday and were re-injured by Coach Sid Gillman. Joe Namath is having knee trouble again. This time it's his left knee instead of the right, which he underwent surgery last December.

Footless Kicker Boots Packers' Farm Club to Win

LOWELL, Mass. (AP) — Tom Dempsey, born without a right leg, was suspended indefinitely by the Chicago Bears for leaving camp without any explanation and veteran end Preston Carpenter, an 11-year NFL player, was released by the Minnesota Vikings.

Suspend Veteran Defensive End From Bear Squad

RENNSSLAER, Ind. (AP) — John Paluck, a Chicago Bears defensive end, was suspended indefinitely Tuesday by owner George Halas for leaving training camp without any explanation. Halas said Paluck left the Bears camp at St. Joseph's College Monday without giving any reason. He had signed a 1967 contract, Halas said, and his departure was not due to contract difficulties. Paluck is from Kingston, Pa. This would have been his ninth year as a National Football League player.

Racial Riots All Have One Thing: Criminals

WASHINGTON (AP) — How do Negro riots start? Republican party leaders suggest violence like that in Detroit may result from a conspiracy, organized, planned and carried out on a national scale.

But the national government at this moment has no evidence of such a conspiracy, and it has had weeks to check. Nevertheless, Republicans called for a congressional investigation.

They accused President Johnson of failing to deal with the riot problem. But Monday night he sent U.S. troops into Detroit.

The riots in one city after another have pretty much followed a pattern. A Negro mob forms to denounce a certain police action. Some times the mob melts. But in other cases it suddenly goes berserk. It becomes, like any violent mob, mindless and plunges into destruction.

"Loudmouth" But what triggers the mob? Some individual or group of individuals, perhaps, shouting something like, "Let's tear the place down." As one government official explained: "There's always a loudmouth to start something."

But what kind of individual would do the triggering? Without question it would be a criminal, either a person with a criminal record or one who is potentially criminal and suddenly found his chance to perform.

Anyone who has had enough dealings with criminals to understand the criminal mind knows a criminal's concern is not a choice between right and wrong but how to get away with what he wants to do.

Nothing provides as much safety as a mob for a man who wants to kill, loot or burn. In the midst of mob action he is practically anonymous, which makes it tough for the police to pin anything on him directly.

"Moral License" But are all the members of a mob criminals? Definitely, no. There are many criminal acts. But this year the President's commission in its study of rioting said: "They are a sort of moral license to the compulsively or habitually criminal members of the ghetto community to engage in their criminal activities and to ordinarily law-abiding citizens to gratify such submerged tendencies toward violence and destruction as they may have."

Gronouski to Speak MADISON (AP)—John Gronouski, U.S. ambassador to Poland, will speak Aug. 8 at the University of Wisconsin Memorial Union Theater, the school announced Tuesday.

MADISON (AP)—Sen. Robert Kennedy, D-New York, was the winner in a presidential straw vote taken during the weekend at the Dane County Junior Fair by the county Democratic club. Kennedy outpolled President Lyndon Johnson 289-148 on the

Hughes called the Newark riots a "criminal insurrection." And Monday night Detroit's Mayor Jerome P. Cavanaugh said the wreckage of his city was "an explosion of the completely lawless element."

In a special report to the nation Monday night, Johnson also called the conduct criminal. And if anyone doubts this all he has to do is remember that some of these riots, which may have been triggered by the action of some individual policeman, went on night after night when the mobs found the police couldn't stop them.

The President's commission acknowledged that riots are complicated and that one way of explaining them is ghetto conditions. It recommended action to eliminate those conditions.

The commission listed racial discrimination, commercial exploitation, economic deprivation, and police misconduct as examples of what participants in earlier riots said they were protesting against.

Yet in the South, where Negroes were kept in an inferior condition longest, there have been no big riots this year. Perhaps those willing to riot there feared the police retaliation in the South would be swift and rigid.

Not an Accident It hardly seems an accident the rioting has been limited to Northern cities where there is division among the whites on police restraint and the concern for Negroes is the greatest. In other words, the North was a softer touch than the South.

At the same time, despite the rioters' expressed hostility toward "Whites," these Northern riots have not been racial in the sense that white neighborhoods were the first to be invaded and demolished, if at all.

In Newark, for example, the destruction was aimed mainly at the Negro areas, a condition which supports the belief the riots were criminally inspired.

And neither in Detroit white fluxes, joined Negro looters without any reports that the Negroes turned on them. They were criminals together.

Geology Office to be Opened at Platteville

MADISON (AP)—The Department of Interior will open a geology project office at Wisconsin State University-Platteville later this month, it was announced Tuesday. The office will serve as field headquarters for Walter S. West, formerly of Washington, D.C., who has been mapping the geology of the zinc-lead district of southwestern Wisconsin. The study is seeking guides to aid in finding new localities favorable for zinc and lead minerals and other valuable materials, he said.

Police, Soldiers Hunt Last of Detroit Snipers

Death Toll Reaches 33 In Rioting

DETROIT (AP) — National Guardsmen and police raked buildings and rubble-strewn streets with machine-gun and small-arms fire today as they battled elusive snipers on Detroit's war-torn West Side. Only an occasional shot re-

Other Stories, Pictures
of Racial Violence on
Pages A-2, A-3, A-12, A-13

placed the stutter of automatic weapons as the city's third night of racial terror ended. Cyrus Vance, a special assistant in the Defense Department and President Johnson's deputy

Detroit Statistics

DETROIT (AP) — Here are the latest statistics in Detroit's fourth day of rioting:

Dead: 33.

Injured: More than 1,000.

Property damage: \$200 million, and officials say the total should reach \$1 billion.

Arrests: 2,651.

Fires: 1,153.

on the scene, said there had been a "substantial reduction in the incident rate" in the past few hours but that more people would die before violence ended.

"I can't predict how long we can expect further sniper incidents," Vance told newsmen. "You have to dig them out."

Vance said there were still no plans to move Army paratroopers from the now apparently secured East Side to replace beleaguered National Guardsmen on the West Side, scene of hours-long pitched battles that claimed 10 more lives during the night.

100 Snipers Left

The 100 persons were killed by gunfire, some apparently by accident, raising the toll of dead

FBI Arrests SNCC Leader

H. Rap Brown In Custody on Rioting Charge

WASHINGTON (AP) — FBI agents arrested H. Rap Brown today on Maryland charges of complicity in a Negro riot at Cambridge.

FBI Director J. Edgar Hoover said Brown was taken into custody at Washington National Airport about 10 a.m.

Brown, national chairman of

Brown

the Student Nonviolent Coordinating Committee, has been charged with unlawful flight to avoid prosecution, based on a local Maryland warrant which charged Brown with inciting arson at Cambridge.

Brown spoke to a crowd of 400 in Cambridge for 45 minutes Monday night. About an hour later 1,000 Negroes rioted for two hours, and a fire spread along two blocks of Pine Street, destroying about a dozen buildings.

Brown was named Tuesday in state warrants charging him with inciting a riot and "counseling and procuring the burning of the Pine Street Elementary Schools."

B52s Pound Gun Positions In N. Vietnam

U. S. Sends Planes On Rare Mission Over Buffer Zone

SAIGON (AP) — Waves of high-altitude B52 bombers made one of their rare invasions of North Vietnam today for a saturation raid on gun emplacements and dug-in bunkers of the North Vietnamese 341st Division just above the 17th Parallel frontier.

The U.S. Command said the big bombers came in waves two hours apart and saturated an area almost two miles long and two miles wide with a lethal rain of bombs.

The number of bombers was not disclosed but the size of the target area indicated a far greater than average strike. The big bombers probably unloaded hundreds of thousands of pounds of bombs on the North Vietnamese emplacements.

North of Zone

The target area was just north of the demilitarized zone dividing Vietnam and about 14 miles inland, the area where the 341st Division is posted and from which heavy Communist snipers have for weeks fired deadly barrages on U.S. Marines dug in about seven miles to the south.

Although ground action was scattered and inconclusive, there were these other developments in the war.

1. The U.S. Command announced that the Forrestal, America's third largest aircraft carrier, has joined the 7th Fleet operating against North Vietnam from the Tonkin Gulf. The Australian destroyer Hobart also rejoined the fleet bombarding North Vietnam.

2. Two American jets were downed over North Vietnam Tuesday. They brought announced U.S. combat plane losses over North Vietnam to 617. They were a Navy A4 Skyhawk jet and a two-place Air Force F4 Phantom. The three others are missing in action.

3. South Vietnamese headquarters said two more Communist mines ripped up the road and blew up a small concrete bridge on Highway 4, the main road from Saigon into the Mekong Delta and long regarded as one of the nation's safest roads.

Worst in Saginaw

Outstate Michigan Struck by Violence

SAGINAW, Mich. (AP) — Racial violence flared in eight Michigan cities Tuesday night, including Saginaw, which has a Negro mayor.

At least five persons were wounded in Saginaw after the mayor had rejected demands of a civil rights group.

Riots and disturbances, hopping among almost every major Michigan community after first erupting in Detroit, also hit Grand Rapids, Pontiac, Flint, Muskegon, Benton Harbor and Mount Clemens.

The five were injured when Saginaw police battled snipers in the midst of a jeering crowd in the city of 98,000. Saginaw is 100 miles northwest of Detroit.

Officers arrested 54 persons in the outbreak that came after the city's Negro mayor, Henry G. Marsh, had turned down demands of a federation of civil rights groups, United Power to be heard in a meeting between Marsh and some business leaders on civil rights.

Houses, Burned

Grand Rapids, the state's second largest city with 200,000 residents, seethed after three Negroes had been shot and slightly wounded while trying to urge an angry crowd to calm down Tuesday. Houses were burned and snipers fired sporadically in the city 150 miles northwest of Detroit.

Pontiac, where two Negroes were killed a day earlier by gunfire, cooled off Tuesday. Police arrested 45 persons in the city of 82,000, only 25 miles northwest of Detroit. But most arrests were for curfew violations. Looting, fire bombing and sniping had hit the heavily industrialized city the night before.

In Flint 60 miles north of Detroit, officials tried to head off violence with a unique plan. Prosecutor Robert Leonard of Genesee County won approval to release 110 persons arrested the night before, on condition the arrested persons go into troubled areas and try to talk their friends out of more violence.

Whether that was the reason or not, calm returned Tuesday

tossed from a group of Negro youths caused \$100,000 damage Tuesday night to an apartment building under construction at Mount Clemens, 21 miles north of Detroit. Another fire caused \$20,000 damage to a race-track garage at the city of 21,000.

At Saginaw, a member of United Power, a grass-roots civil rights group, declared, "The only way black people can get heard is to march." Soon, 50 marchers were heading for downtown Saginaw. They sat down in the main intersection, gradually being joined by more than 400 sympathizers.

All city schools were closed today, after six public schools were damaged by vandals. Negroes comprise 24 per cent of Saginaw's population.

More than 40 fires erupted in Grand Rapids, causing damages totaling an estimated total of \$250,000, mainly to houses.

Killed in Action

WASHINGTON (AP) — U.S. Army Sgt. Dean M. Beranek of Rice Lake, Wis., has been killed in action in Vietnam, the Defense Department said Tuesday.

Beranek is the son of Mr. and Mrs. Leon Beranek.

'Let Them Come Over Here'

GIs in Vietnam Critical of Riots

SAIGON (AP) — "Let them come over here if they want to fight," said John B. Harper, 20, a white infantryman from Lorain, Ohio.

"The rioting and violence isn't going to accomplish a damn thing," said Capt. David Travis, a Negro. "But it certainly discloses a festering sore in our society, and it is an indication that there is a group of people that haven't been afforded the opportunity to enjoy the affluence of American society."

These were typical reactions to the racial violence in the United States expressed by combat soldiers of the U.S. 1st Infantry Division's 2nd Brigade, stationed at Di An 15 miles north of Saigon.

"I'm distressed to see the rioting occur," said Travis, 32, a career officer who is a native of Newark, N.J.

Two other Negroes with the brigade, 1st Lt. Winford (Mike) Parker, 26, and Spec. 4 Kiser Hunter, 24, are from Detroit, one of the hardest hit cities.

Parker expressed great concern for the safety of his wife, Bonnie, and their four small children and for his parents Mr. and Mrs. Joseph Parker. "I've got enough problems fighting a war over here without having to worry about my people back home," he said.

Hunter, too, said he didn't think the rioting in Detroit was justified.

"I've talked to a number of guys here who ask me, 'Why the riots?'" Hunter said. "I can always tell them why, but I don't need to agree with the policy behind it."

Hunter cited many decades of injustice in housing, education and voting.

Montreal Newspapers blared out the story of French President Charles de Gaulle after he practically told Quebec and separatists to follow their own

Cuts Visit Short

De Gaulle Won't See Pearson

MONTREAL (AP) — French President Charles de Gaulle will not see Canadian Prime Minister Lester B. Pearson today, according to a statement from the Elysée Palace in Paris.

The statement said de Gaulle would see Canadian Foreign Minister Jean-Jacques Bertrand today, but would not see Pearson. It also said de Gaulle would not leave Montreal today for Ottawa.

De Gaulle's visit to Montreal was part of a tour of Canada. He is expected to leave Montreal today for Ottawa, where he will see Pearson and other Canadian officials.

Cancer Society Picks Fieldman

G. J. Wipperfurth
To Head Volunteers
In 12 Counties

Gregory J. Wipperfurth, Madison, has been assigned field representative for East Central Wisconsin and will be assisting American Cancer Society volunteers in Brown, Calumet, Dodge, Door, Fond du Lac, Kewaunee, Manitowoc, Outagamie, Ozaukee, Sheboygan, Washington and Winnebago Counties.

His assignment was announced by Robert O. McLean, executive vice president of the Wisconsin American Cancer Society Division.

Wipperfurth

Wipperfurth is a native of Waunakee where he was graduated from high school. Before coming to the Wisconsin Division he was employed by the Madison police department and served four years in the United States Navy. He is married and the father of one daughter.

He will replace Albert Van Oort, Appleton, who has been promoted to assistant executive vice president for field services.

The new field representative completed an orientation and training program recently in Madison before being assigned to the Fox River Valley Area.

Robbers, Use Open Window

LOS ANGELES (AP) — Everett Gardner and his wife know all about burglars.

Their restaurant in Los Angeles was burglarized three times and held up eight times before they decided to go to a quiet place and start over.

In Hemet, Calif., shortly after their restaurant opened two years ago, a burglar used a crowbar to break down the door.

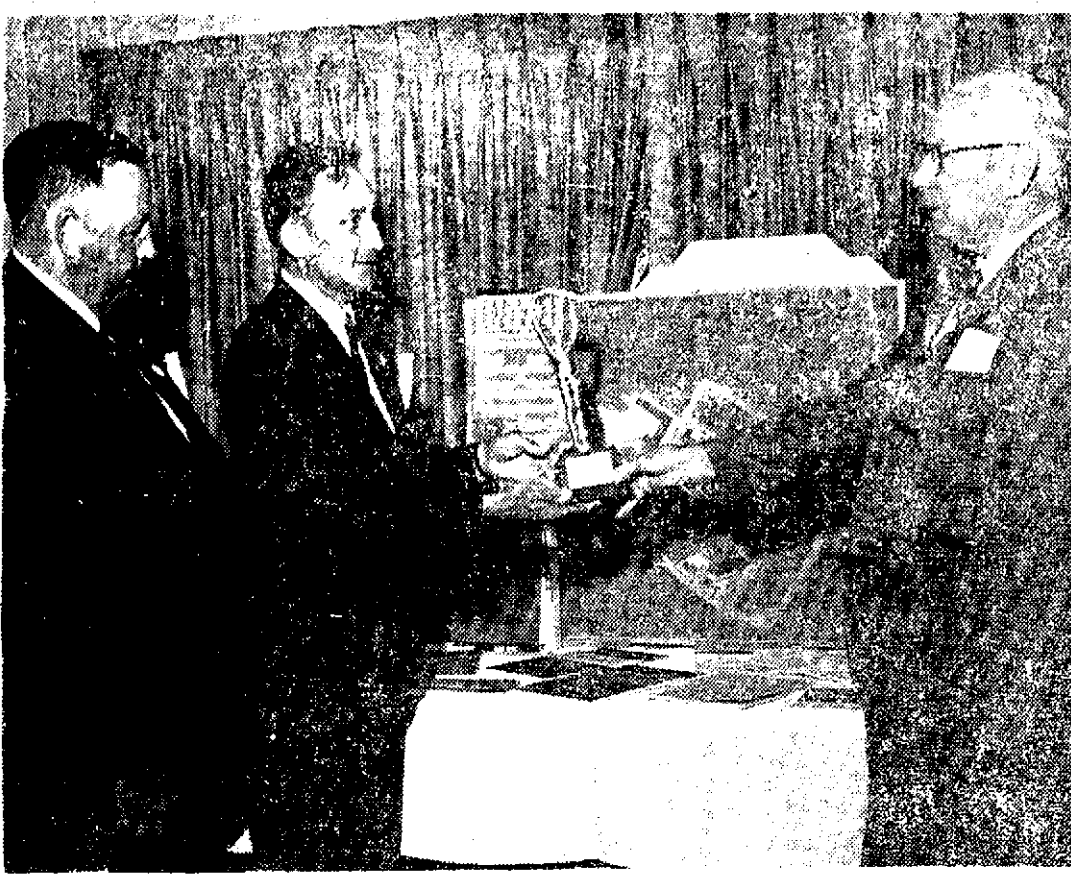

Since then, their place has been burglarized five times. Each time the kitchen door was broken down.

The Gardners have a new sign on the door which says:

"Robbers, no crowbars, please."

"Kitchen window is open."

"Thanks a bunch."

Clintonville Was the Winner of the community display award, Tuesday, at a community planning institute in Waupaca. The institute was sponsored by the Northeastern Wisconsin Regional Planning Commission. Lloyd Eggleson, left,

Clintonville city clerk and Basil Avrey, city engineer, are shown standing in front of the display, accepting the winning trophy from Gordon A. Bubolz, chairman of the planning commission. (Post-Crescent Photo)

\$729,099 School Budget Approved at Weyauwega

Board to Purchase Two Mobile Classroom Units for Next Year

WEYAUWEGA A budget of \$729,099 was approved by the board of the Weyauwega Joint No. 2 District at the annual meeting Monday night.

A tax levy of \$461.038 will be required under the new budget and estimated receipts from other sources will total \$194,949.

A tax rate of \$16.42 was approved and a contingency fund set up for transportation to cover the additional expense of transporting parochial students.

The board was authorized to borrow money for use in purchasing two mobile classrooms at a total cost of \$17,590.

The units are constructed of extra heavy materials and have outside dimensions of 12 feet by 63 feet with actual useable space measuring 12 feet by 42 feet. Each unit will have its own heating system consisting of an electric furnace. They will be set up with two large rooms to be used for special classes, such as remedial reading and elementary Spanish and provide additional storage space. The

gram, which is available to all students in the district, and the student insurance program.

In a re-organizational meeting following the annual meeting, the following board officers were elected: Herman Hartlieb, president; Raymond Koepf, vice president; Dr. Darrell Johnson, clerk, and Robert Meydam, treasurer.

Elected to serve on the board for three-year terms were incumbent Darrell Johnson, of Weyauwega; Ray Koepf, towns of Wolf River and Bloomfield; and Ronald Abbott, village of Fremont.

Robert Meydam, town of Fremont, was elected for two years to complete the unexpired term of Albert Hahn, who resigned this spring.

All were elected by unanimous vote.

Salaries of board members, which remained the same as the current years, were approved.

The current directors \$290, clerk, \$250 and treasurer \$250 and a transportation expense rate of 8 cents per mile.

The publication of a quarterly newsletter to be sent to all electors in the district was discussed. The purpose of the letters will be to update electors on school operations throughout the year and add them in understanding the various other programs.

The board was given approval to transfer a corner of the school property in Fremont to the village. The area consists of 66 square feet and is located in the southeast corner of the school grounds and contains a village well. The area will be used for the village fire protection.

The school year was set at 187 days, with 180 actual teaching days. The extra days allow for in-service meetings, teachers' conventions and parent-teacher conferences. School is scheduled to begin Aug. 28.

In other business, electors authorized the school lunch program.

Property Purchase

In other action, district residents authorized the school board to purchase the Behnke and Juno properties adjacent to the school at a fair price if and when they become available.

The budget hearing conducted a week in advance of the annual school meeting will be discontinued next year as a result of poor attendance, electors decided. The hearing will be conducted at 7 p.m. the night of the annual meeting. Detailed proposed budget reports will be available a week or two prior to the hearing to enable residents to thoroughly study budget figures.

Salaries of all school board members received a \$20 per year boost as a result of action at the annual meeting. Approximately 40 school board meetings were conducted last year. If the same number were conducted next year, a 50 cents per meeting raise would be required.

Salaries Boosted

Salaries of all school board members received a \$20 per year boost as a result of action at the annual meeting. Approximately 40 school board meetings were conducted last year. If the same number were conducted next year, a 50 cents per meeting raise would be required.

Contract Awarded

Michael Wallender, Inc., Manitowoc, was awarded a \$50,500

general construction contract in June.

The near 10,000 square foot expandable steel structure is expected to be ready for occupancy by Aug. 28 when students from Reedsville, Stockbridge, Little Chute and Brillion will be enrolled in the second year of classes at the state's first cooperative venture of this type.

One 27 foot square classroom and another 27 by 40 feet, an office, display and exhibit space will be included in the shop area.

for foundry, machine shop, power mechanics and welding instruction.

The school, geared to train non-college bound, or post-high school vocational-school bound students, was housed in Ariens' downtown plant last year. Expansion plans by the firm made it necessary for the training project to find new quarters.

Berner-Shober and Kilp, Green Bay, is the architectural and engineering firm for the project.

\$1,073,925 School Budget Proposed for Waupaca

County's Campus Law Suit Gets Judicial Justification

Judge Wilkie Rules Outagamie Has Valid Action in Site Change

Post-Crescent Madison Bureau

MADISON — Outagamie County's suit to block development of the University of Wisconsin-Green Bay on its east-side Shorewood site may proceed, a Dane County Circuit Court Judge ruled Tuesday.

Ruling on a demurrer motion brought by the state in an attempt to kill the suit, Judge Edwin Wilkie held that the suit may proceed and granted the state 20 days to answer the county's original complaint, which attempts to stop development of the planned campus because of alleged secrecy in deliberations in picking the site.

The ruling is expected to strengthen the hand of Outagamie County legislative foes of the Shorewood site who are attempting to halt campus development through a bill to move the institution and through a fight on the State Building Commission over the release of planning funds for the new school.

The decision on whether to release \$250,000 for the Northeastern Wisconsin school must be made by Aug. 14 if the campus is to have even the slightest chance to open in the fall of 1969, campus planners contend.

The bill to move the site of the West-side Larsen Farm has been passed by the Assembly 100-60 and sent to the Senate, where its main supporter, Sen. Gerald by taxes will be \$775,623.

Last year's proposed budget costs \$935,623, which included for the high school's A. W. Gordon said this is due to hiring additional teaching personnel, salary increases and curriculum revisions.

Another increase was seen in the maintenance figure of \$48,160, Gordon said that approximately \$20,000 this has been designated for a window renovation project.

Other expenditures close to last years figures were administration \$29,970; health services \$700; attendance \$2,400; operation \$56,845; transportation \$75,500; Gordon said that was an educated guess as to cost of transporting private school pupils as well as public school students-however he felt this amount would be adequate.

Fixed Charges

Fixed charges \$19,920; \$33,000 of which will be used for rental of rooms at St. Mary's for additional students from parochial schools; food services \$10,000; student body activities

There will be out-patient services for children at the major hospitals under the new program, Schmidt said, and team members will also travel to local communities to examine the problems of particular children when that appears necessary or desirable.

The change of direction of the department chief said, plans are already underway to organize second consultation teams reorganizational meeting Monday.

A central office team in Madison consisting of a child psychiatrist, a social worker, a may be by community agencies and an educational or physicians.

The diagnostic center, a personal enterprise of Dr. W. D. Stocall, long-time head of the two hospitals, that heretofore have accommodated mostly suspended by the legislature short-term loan amounting to \$250,000 at a rate of 3.9 per cent interest. The funds will be used also offer and to children in operation were excessive in to detract costs of operating the local communities and "see to it view of the availability of other state facilities.

ministrative procedures, the state argued.

The county replied that the statute of limitations had not expired before any court action was started and that the special nature of the site fight suit made proper the appeal directly to the Circuit Court.

The case is the first major test of the state's anti-statute of limitations governing secrecy statute governing the contest was started and that in an earlier ruling on a similar motion, Judge Wilkie had said that the test is of major importance and of interest to all of the people of the state and should be allowed to proceed.

That ruling was handed down before the state's demurrer was entered and has been strengthened first have been appealed to that end by Judge Wilkie's late opinion.

Chilton Sets School Budget at \$876,633

Balance of \$35,246 Left From Last Year's Total

CHILTON — Electorate of anticipated expenditures is in Joint District No. one Monday capital outlay, which is \$57,586 evening approved a \$614,496 tax as compared with last year's levy which will be financed by a \$266,967 which was allocated to mill rate of \$16.55 per \$1,000 cover building additions costs, the audio visual equipment.

Increases Noted

An increase in instruction of \$115,368 was noted, rising from \$366,437 to \$481,805, Supt. A. W. Gordon said this is due to hiring additional teaching personnel, salary increases and curriculum revisions.

Another increase was seen in the maintenance figure of \$48,160, Gordon said that approximately \$20,000 this has been designated for a window renovation project.

Other expenditures close to last years figures were administration \$29,970; health services \$700; attendance \$2,400; operation \$56,845; transportation \$75,500; Gordon said that was an educated guess as to cost of transporting private school pupils as well as public school students-however he felt this amount would be adequate.

Children's Consultative Services Authorized

Welfare Department's Action Complies With Closing of Child Diagnostic Center

Post-Crescent Madison Bureau

MADISON — Children's consultative services have been authorized in the state mental hospitals at Mendota and Winnebago, the state department of welfare told the state board of welfare today, in compliance with the legislature's decision to close the children's diagnostic center that has operated during more than a decade here.

The change of direction of the department chief said, plans are already underway to organize second consultation teams reorganizational meeting Monday.

Swimming Attendance Picks Up in Waupaca

Beach Director Says Crowds Last Week Narrowly Misses Mark Set in June, 1966

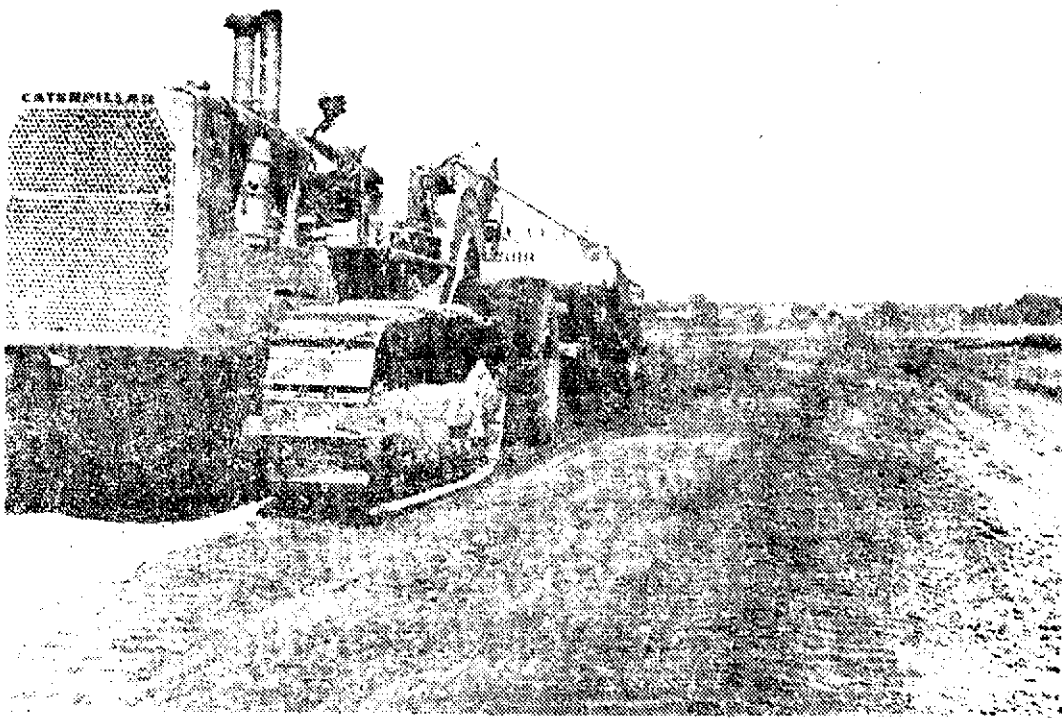

WAUPACA — One of the swimming certificates. Beginning attendance marks in the past week who passed their tests History of South Park Beach were David Glass, Sheri Hirte, was recorded last week when Shelley Godfrey, Dennis Saller, 7,650 people used the facilities. Martha Rohrer, Tom Wood.

Beach director LeRoy Haber-Roberta White, Pat Brunner, Korn said the attendance figure Kim Beckland, Susan Hayes, was topped only by the week of Sheri Nell, Tom Romand, Pam June 6, 1966. Attendance at Harwood, Linda Johnson, Joan swimming lessons was 817. Johnson, Cindy Decker, Terry which also was just below a Decker, David Carlson, Leann Fieldstad, Ross Larson, Barbara Nelson and Jim Wagner.

The year's totals now stand at 50,390 at the beach and 3,324 in attendance at swimming lessons.

Red Cross Certificates Although beach attendance is close to 9,000 behind 1966, lesson attendance is approximately \$90 ahead this year. Haber-Korn said.

The past week also was the biggest week issuing Red Cross

Outagamie County Highway crews are completing dirt moving work on a major portion of the two-mile West College Avenue extension project which, when finished, will be four lanes, divided, from a new U.S. 41-College Avenue interchange to Two Mile Road, near the county airport. Plans call for a crushed aggregate base on one lane by fall and the completion of both lanes, with paving, next year. Cost of the county-financed program, first portion of a proposed expressway system, is \$250,000. (Post-Crescent Photo)

Prepare for Marion Tourney

Boys Baseball Loop To Wind Up Season

MARION — Teams in the Central Wisconsin Boy's Baseball League will play their final games of the season this week and then compete in a tournament at Marion Tuesday, August 1.

The standings through July 18 games with two games scheduled this week to wind up the season are: Americans-Bonduel 5-4; Seymour 3-1; Shiocton 3-1; Weyauwega 2-2; Waupaca 1-3; Manawa 1-3; and Marion 0-5. Nationals—Marion 4-1; Waupaca 3-1; Bonduel 2-2; Manawa 2-2; Seymour 2-2; Shiocton 1-3; and Weyauwega 0-4.

In recent action Waupaca's American Leagueers topped Marion 18-2 in a game shortened to three innings because of the 15-run ahead rule. Shiocton downed Manawa 13-2, and Bonduel beat Seymour 9-2.

In the National League Waupaca handed Marion its first loss of the season by beating them 10-0. Manawa edged Shiocton 7-6, and Bonduel downed Seymour 9-2.

Lions Start Project At Manawa

MANAWA — The Lions Club community birthday calendar project is underway with distribution expected in mid-September. The annual project includes birthday, anniversary and meeting dates.

Lions can be made with area chairman, City chairman and Melvin Pettila, Ward 1; Edmund Packham, Ward 2; Lowell Foulers, Ward 3; and Raymond Steenberg, Ward 4. Beer Lake area chairman is J. D. Hershberger. Chairman for other rural areas are Rolland Hardrich and Oliver Kosler.

Instead of the regular meeting July 31, the Lions will meet their annual visit to the Wisconsin Lions Camp for the Visually Handicapped at Rockford on Thursday, Aug. 3.

Clintonville Red Cross Chapter Distributes Clothes, Home Items

CLINTONVILLE — The Clintonville Red Cross chapter, a branch of the national organization sponsored by the Clintonville Chapter of the American Red Cross, reports that in the past period between April 13 and court Monday night before July 11 more than 300 items were distributed to the needy.

Items included articles of clothing for men, women, boys, girls and infants, as well as by city police on July 16 when many miscellaneous household items were distributed.

Caroline Youth Admits Entry; Fined \$100

CLINTONVILLE — Police officers in Clintonville, Wis., have charged a youth with the entry of a car into the city limits. The youth, who is 17 years old, was fined \$100 and court costs.

Romberg had been arrested for the entry of a car into the city limits. The youth, who is 17 years old, was fined \$100 and court costs.

Brillion Auto Firm Files Incorporation Articles

OSHKOSH — Articles of incorporation for Park Auto Leasing, Inc., with offices at 109 S. Main St., Brillion, have been filed with Viole Firnstahl, Winnebago County register of deeds.

Harold J. Jentink, 118 Park Ave., Brillion, is listed as incorporator.

Harold J. Jentink, 118 Park Ave., Brillion, is listed as incorporator.

Russell Diehl To Head School At Little Wolf

Viroqua Resident To Assume Duties Aug. 7

MANAWA — Russell Diehl, Viroqua, will assume superintendent duties of Little Wolf Joint School District No. 7 Aug. 1. He succeeds Irvin Lotz, who resigned that post in favor of a teaching position in the high school.

Diehl graduated from Ripon College with a bachelor's degree in 1947 and from the University of Colorado, Boulder, with a master's degree in administration in 1952.

He held teaching posts in Berlin, Port Washington and Rhineland. He was high school principal at Albany for one year, then superintendent at Random Lake from 1956 to 1964, and at Viroqua in that capacity from 1965 to 1967.

Positions remaining unfilled to date in the district include high school principal, girls physical education and vocal music instructors, and a principal at Maple Hill elementary school.

School Loan for Clintonville

CLINTONVILLE — A resolution for temporary borrowing of money was adopted Monday night by the board of education of Joint School District No. One at its meeting following the annual meeting.

The resolution calls for temporary borrowing for the 1967-68 fiscal year of a sum not to exceed \$400,000. This action is necessary to have operating funds until tax monies are received.

The dairyman's State Bank was designated as the depository for the school district's general funds for the 1967-68 fiscal year.

The board voted to make the proper application to the Department of Public Instruction to participate in the hot lunch and special milk programs for the coming school year.

Robert Stier was named as the board's delegate to the Cooperative Education Service Agency (CESA) convention on Aug. 14.

CESA to Act on Farm Transfer

NEW LONDON — A petition to transfer a farm from the Bear Creek School District to the New London District will be acted on by the Cooperative Educational Service Agency (CESA) school reorganization committee following a public hearing at the Sugar Bush School at 8 p.m. Aug. 19.

Roger Paul, route 2, who has been attempting for several years to get into the New London district, is the petitioner. Paul owns 223 acres of land northeast of the New London district.

Some of the land, 23 acres, is in the Town of Maple Creek while the remainder is located in the town of Deer Creek.

Paul was one of several farmers in the area who petitioned for transfer last year. The petition was acted on favorably by CESA 8, but a referendum vote of New London district voters overturned the decision.

Paul is at a tour of the United States following tours of Europe and the Near East.

Brillion Auto Firm Files Incorporation Articles

OSHKOSH — Articles of incorporation for Park Auto Leasing, Inc., with offices at 109 S. Main St., Brillion, have been filed with Viole Firnstahl, Winnebago County register of deeds.

Harold J. Jentink, 118 Park Ave., Brillion, is listed as incorporator.

Brillion Schools Get \$534,473 Budget

Local District Taxes Will Net \$432,967; Higher This Year

BRILLION — A tax rate of \$14.75 per \$1,000 of equalized valuation will finance the 1967-68 school budget, approved \$534,473 school budget, approved \$8,791. Town of Maple Grove, Monday by district electors at \$23,307; Town of Rockland, \$10,100; the annual school meeting.

The \$14.75 rate will produce \$432,967 in local district taxes when applied against the district's \$29,353,700 equalized valuation. City of Brillion residents will pay \$6.94 per cent of \$6,600 federal aid and \$5,250 the tax levy. This amount is from county aid.

The district also will receive \$32,750 from the Brillion Cooperative Training Project. This includes \$11,000 tuition from other districts, \$21,000 federal aid, \$450 handicapped children aid and \$300 from other sources.

Expenditures show \$295,744 appropriated for instruction; \$22,415, general control; \$43,070, transportation; \$31,565, operation; \$17,125, maintenance; \$13,177, fixed charges; \$1,819, clearing accounts; \$42,957, debt service; \$16,025, capital outlay; \$1,600, interest invested on building fund; \$400, community services and \$48,576 for the Brillion Cooperative Training Project.

Clintonville Pool Has Successful 'Family Night'

CLINTONVILLE — Nearly 100 persons attended the first "Family Night" Monday at the Municipal swimming pool.

In view of this good attendance, Carl Bruggink, co-manager of the pool, has announced that the program will be conducted every Monday followed by open swimming.

The purpose of this event is to allow enjoyment of the pool as a family and to give parents the opportunity to work individually with their children on swimming skills.

The 6-Day War in the Middle East
Lightning Out of Israel
The Associated Press

LIGHTNING OUT OF ISRAEL is the first, and probably the best, of the hard back books on the Middle East war.

The big, colorful, impressive volume—The 104 pages, 160 pages, with 100 black and white photographs, about a third of the color in many newspapers before this time.

It tells the full story of the six-day war and the events leading up to it—not just in terms of military movements and air strikes but through the eyes of men and women actually involved as fighters or civilians.

A team of writers, the distinguished staff of The Associated Press, wrote it. It is not only a powerful, gripping, and authoritative work, but it is also a masterpiece of writing.

And through this newspaper the book costs only \$2! To reserve your copy, fill out and return coupon with check right away.

Rioting Is a Crime

The horrible rioting in Detroit with its loss of life and millions in damages is the latest clear example of an utter disregard for law and order. It cannot be condoned or excused by any specious argument that it was a protest against and the result of intolerable living conditions in the Negro area of Detroit. As real as such conditions may be there and in other cities where similar events have occurred, to describe the rioting, bloodshed, terror, and damage as a proper means to achieve civil rights for Negroes is to agree that this symptom of anarchy, for whatever reason, is a proper means to such an end.

New Jersey Gov. Hughes correctly labeled the Newark riots a short time before the Detroit blowup last weekend. It was "plain and simple crime and not a civil rights protest," Gov. Hughes said. President Johnson said, "Pillage, looting, murder and arson have nothing to do with civil rights... we will not tolerate lawlessness. We will not endure violence... this nation will do whatever is necessary to suppress and punish those who engage in it."

No one would deny members of any minority group their right to full enjoyment of the rights of all other citizens, to seek legislation or court decisions to insure their use of those rights, and to use whatever other legitimate means and efforts are available to attain equality. But to condone riots in complete disregard of the laws of the land for the proper redress of grievances is equating purely evil means as proper for what presumably are good

ends. Social uplift of any class or group does not come through complete disregard of laws duly constituted to protect all of society.

It is high time that Negro leaders and public officials categorically denounce rioting as a vicious crime and not, as some of them have done, as merely a means of protest against intolerable conditions. Rioting cannot and should not be excused, and whatever means are necessary to maintain law and order must be employed. This may not eliminate the riots but it would make clear that utter disregard of law and order will not be tolerated. Not to do so could well lose for Negroes many of the gains they have made through an awareness on the part of fair-minded citizens that they indeed deserved better than they were getting.

The law of the jungle as a means to obtain rights and equality and better living conditions has no place in America. Riots are plainly the law of the jungle in their most vicious form. To gloss over the reasons and the effects of rioting as mere social protest is merely failure to face the simple fact that rioting is a crime, should be called a crime, and should be dealt with accordingly.

Negroes are no less subject to the laws than other Americans of whatever race; this, too, is a part of the equality they want and are achieving, however slowly it may appear to them. To believe otherwise and to condone rioting as a means to speed the process may, in fact, do their legitimate causes irreparable harm.

Deeper U. S. Involvement in Thailand

There are some disturbing indications that the United States may find itself bogged down in Thailand as well as in Vietnam.

There are great differences between the situations in the two countries. Thailand has not been continually at war for more than 20 years. It has a history of self-government. Its economy is far healthier than that of Vietnam and always has been. Presumably its government has the general support of the people despite the usual charges of corruption.

But the guerrilla activities appear to be increasing. And the scale of the American military buildup in Thailand, primarily airfields which base the bombers flying over North Vietnam, means that attacks on those bases will of necessity be repelled by American troops.

Currently, of the approximately 40,000 American troops in Thailand, three-fourths are Air Force personnel actively engaged in the attack on North Vietnam. Thai officials were reluctant to have this information become known since it would make them more vulnerable to Communist attack. It is likely that the Thai desire for more help in repelling the guerrillas was a point in the bargaining.

The United States is now spending \$62 million on direct military aid, \$14 million to convert the national police into a paramilitary force with heavy weapons and helicopters and about \$29 million on road building and civil development programs which include efforts to improve agriculture, water supplies, health measures and assist the local government in remote areas. The remote areas are where the guerrilla troops cause the most trouble and where Communist propaganda has the best breeding ground. Thai officials generally concede that they have been slow to improve

conditions in and contact with the remote villages. And the American funds appear extremely inadequate.

We must question whether the balance between military and economic aid is realistic. For some reason the former is always easier to get through the United States Congress. And yet the results of our heavy military assistance throughout the world are anything but encouraging.

It seems at least plausible that in many of the underdeveloped areas it would be far better to let the local governments cope with Communist propaganda and infiltration as best they may with whatever weapons are at hand. If the American assistance stressed the importance of economic help — and the Communist propaganda hit at the same thing — local governments would be both forced and helped in introducing reforms. By merely giving them more sophisticated weapons, the United States does little to alleviate the conditions which appeal to Communist efforts.

In Southeast Asia the Communist would have used force and terrorism to try to expand their control whatever the American policies might have been. But the essential confidence in their own government efforts might have been built up a little better at least in Vietnam. And the ever-increasing strains on Communists around the world, their obvious failures to improve conditions in many places, and the squabbles among themselves would be noted even if South Vietnam had been taken over by the Viet Cong and even if they owed allegiance to Ho Chi Minh.

Given our involvement in Vietnam, it may be impossible at this juncture to ignore the Communist guerrillas in Thailand. But if we succeed in making puppets out of the essentially proud and capable Thais, we'll have another Vietnam.

Tshombe Faces Execution

The decision of the Algerian Supreme Court to extradite Moise Tshombe to the Congo where he is under sentence of death for treason is contrary to the traditions of extradition whereby politically accused individuals are generally exempt. The decision represents the anti-colonial attitude of the Algerian government rather than strict adherence to the tenets of international law.

The events in the Congo the last few weeks lend credence to charges that Tshombe was trying to organize a rebellion in the Congo against the government of General Mobutu. Observers have suggested that the kidnapping of Tshombe caught the plotting rebels, many of them white mercenaries from South Africa and Rhodesia, by surprise and they started the revolt too soon for any chance of success. It is hardly a defense of Tshombe to point out that the Congo has had a succession of coups, revolts and plots since it received its full independence.

But the Algerian decision was a mistake particularly in view of the fact that Algerian officials may have conspired in the hijacking of Tshombe's plane and his kidnapping.

There is an ironic footnote to all the proceedings. When told of the court's decision, Tshombe shouted that he was a victim "of the American C.I.A." Being anti-American or at least anti-C.I.A. apparently is the popular method of trying to win public sympathy and support.

'This'll keep them agitators from comin' in and causin' trouble!'

On The Right

Government Actually Subsidizes Breakdown of Negro Family Units

BY WILLIAM F. BUCKLEY, JR.

Mr. Daniel P. Moynihan is all the more relevant as one broods over the ruins of Newark. There is now available an entire book dealing with the subject — it is called "The Moynihan Report and the Politics of Controversy." The thesis of the book is summarized by Mr. Moynihan himself in a special report in Commentary Magazine, and it is imperative reading for liberals and conservatives alike, to say nothing of those who seek to advance the cause of Negro equality free of the shackles of ideological dogma.

Buckley

There are piquant aspects to the Report. Mr. Moynihan never admits it, but it is well known that it was he, acting at that time as Assistant Secretary of Labor, who composed the famous speech given by President Johnson at Howard University in June of 1965. The President found himself saying that the whole question of Negro equality was not answered merely by successive civil rights enactments, but by the acknowledgment that the family was the crucial unit in social progress, and that statistics show that the dissolution of the Negro family is a progressive phenomenon. In other words, said Mr. Moynihan through the mouth of the President, the Negro family unit must be helped to endure, else all the formal equalities bestowed by Congress in the numerous civil rights bills become meaningless.

Mr. Moynihan's proposed solution for the Negro family unit is to give aid and comfort to an anti-Negro community always seeking rational justification for its sneaking suspicion that Negroes are an inferior race.

HE'S CRYPTO-RACIST

Thus for instance Dr. Benjamin F. Payton, a young Negro sociologist and minister associated with the New York

Protestant Council, bombed the Moynihan Report and indirectly the Howard speech by identifying its views as the views of a "crypto-racist." The Payton report had the effect of intimidating the Johnson Administration, so that when the White House conference convened at which the Moynihan-Johnson proposals were to be considered, the whole business of family subsidies was wiped clean off the agenda, leaving only the clichés which were duly rattled and duly forgotten.

The third fact that worked against a serious consideration of Mr. Moynihan's proposals was Watts. Moynihan points out shrewdly that until Watts the civil rights movement had been the aggrieved, the just, the righteous cause. In the South an old game had been going on with a new rule, imperfectly understood by whites, that the first side to resort to violence — lost. Now in the North the Negroes have resorted to violence, in a wild destructive explosion that shattered, probably forever.

Mr. Moynihan is an Irishman and is just every now and then given to Gaelic pessimisms — "the image of non-violent suffering."

The point raised by Mr. Moynihan, an adamant liberal, is that hyper-sensitive egalitarianism can be the worst enemy of frank discussion of how to move toward effective equality. A conservative can easily discern weaknesses in his macrocosmic dispensation — while still endorsing the general idea, namely, that massive efforts to help the Negro must be made not merely in order retroactively to appease white consciences, but in order realistically to help to achieve desirable results, to reassure that violence in the great cities is not a necessary part of the future of the American summer.

Potomac Fever— by Jack Wilson

A new highway safety rule says tires must show how much air pressure they need—another fascinating facet of our government's efforts to control inflation.

Dean Rusk says North Vietnam is hurting. People there are short of electricity, gasoline, cement, peace pickets...

The U.S. is against Britain's plan to reduce its military forces. All we wanted the British to do was get rid of those danged Hessians.

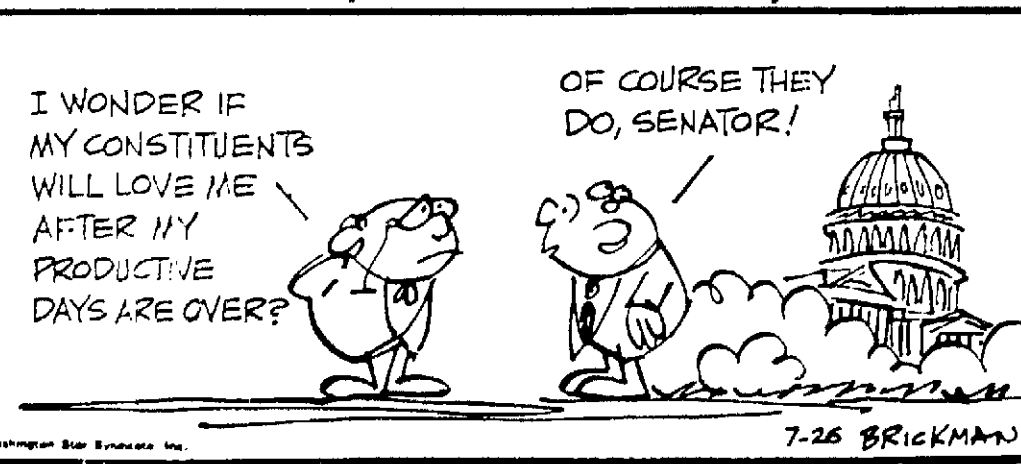

Now there's a race riot in Minneapolis. It shows what enthusiastic cops can accomplish in spite of a city-wide shortage of Negroes.

A house committee approves a \$4.8 billion public works bill. When congressmen say we need better meat inspection, they aren't talking about barrelled pork.

Senator Mundt says we can't fight poverty until we know what causes it. Well, first, Karl, there's lack of money...

the small society

by Brickman

Wisconsin Report

Legislation Banning Public Worker Strikes Difficult to Enforce

BY JOHN WYNGAARD

MADISON — A survey by the Council of State Governments relates that 30 of the states of the country, like Wisconsin, have express prohibitions of strikes by public service employees.

Wyngaard

But in the typical state with such rules, either by statute, court decisions or interpretations of the attorney general, there remains the dilemma that has troubled Wisconsin governmental leaders now and again:

How to make such anti-strike laws effective, in the face of a determined group of aggrieved or otherwise rebellious employees in a governmental unit or service.

In most of the states there are no specific penalties provided for a branch of the law. Typically an injunctive relief procedure is required through petition to the courts. But such sanctions tend to be more nominal than real in a constituency of strong organized labor orientation, such as the city of Milwaukee as a pertinent example, there is an obvious and deep reluctance of elected public officials to seek such remedies.

NEW PROCEDURE PROPOSED

That is one of the reasons why Gov. Knowles' labor advisor, Prof. Nathan Feinsinger, recently proposed a new procedure that would put the responsibility for such injunctions upon state officials, the governor and the attorney general. The presumption seems to be that they are better insulated from the organized labor pressures, which some critics may challenge.

Earlier this year the Wisconsin Assembly Labor Committee with a good deal of splash held a series of hearings around the state on the question of public employee strike legislation and how it might be strengthened, as well as other problems associated with the increasing unionization of governmental workers at a time when the public sector of employment is becoming one of the major elements of the total labor force.

Strictly Personal

Few Art Compositions Are Really Original

BY SYDNEY J. HARRIS

Not long ago I attended a concert at which a new piece of music was played for the first time in this country. The audience generally liked it, but in the lobby afterwards, I heard some complaints that it wasn't very original — they seemed to detect hints of other composers in the piece.

This demand for originality is the besetting sin of the avant-garde, just as the demand for conventionality is the main vice of the traditionalists. Some people cannot recognize merit unless it is wedded to novelty, while others cannot recognize it unless it comes in a familiar form.

Harris

Actually, no work of art is "original," and the artist himself would be the first to admit it. It is the product of thousands of minds that preceded him to which he added something of his own. Much of the most revolutionary music of the 20th Century has its roots deep in Bach, some of the most abstract "modern" art goes back to Giotto for its source.

In 1828, when Beethoven sent the manuscript of his great quartet to C. Sharp Minor to Schott & Sons, his publishers, he humorously scribbled on its title page: "Zusammengesetzt aus Verschiedenen Dessen und Jenem." ("Cribbed together variously from this and that.") Schott took fright, and wrote reminding Beethoven that it

What conclusions the committee has arrived at remain to be disclosed. But the outlook is probably not optimistic. It is one thing to write a statute that declares public service strikes as hostile to the public interest. It is quite another to make the prohibition work. Even if a court injunction is had, and there are contempt of court orders, how can a couple of hundreds of Milwaukee sewage works employees be jailed, to draw one illustration that has a certain relevance in view of the brief but dangerous strike in that essential public utility a few years ago?

OTHER DETERRENTS SUGGESTED

Some students of labor affairs believe that uninterrupted operations of vital governmental services could be assured through other deterrents, such as the revocation of the certification of an offending union as the legal bargaining agent, or the cessation of dues checkoffs by public officials in those localities where such agreements are in effect. But such deterrents might not be truly effective in many instances, and especially when a strong union is involved. Moreover, they would not cover the problem of wildcat strikes or work stoppages or slowdowns by small groups within an employment unit without the endorsement of union officers.

The major current demand upon the Legislature by the public employee union lobby is the so-called "agency shop," now shrewdly renamed the "fair share" plan by its sponsors and supporters, including Prof. Feinsinger. Under such a law, which Gov. Knowles killed through a veto two years ago, unions if they have a majority vote in a public service employment unit could collect fees from employees who are not members of the union on the premise that such non-paying civil servants and holdouts are enjoying the fruits of the union's work without paying for its support.

There is a tendency to trade on the issue — the enactment of stronger anti-strike legislation or the filing of no strike pledges — in return for support of what is the union shop under another name. Yet there are stronger philosophical objections to such coercive pressures upon civil servants in a state which has thus far upheld the idea that public employment should be available to those who qualify for it, without discrimination or restrictions unrelated to their competence.

Actually, there was a double joke on them, because there are many strains in the quartet which were "cribbed" from other works of Beethoven, and also from Bach. His genius lay in the use he made of these strains, not in his mere inventiveness of melody — in which Beethoven was often exceeded by far inferior composers, such as Verdi.

It is worth recalling that only one of Shakespeare's plays was "original" — and the worst one, at that, "The Merry Wives of Windsor." All the other of his 37 comedies, tragedies and histories were drawn from earlier sources. Shakespeare never "invented" a plot in his whole dramatic life — he merely improved and transformed what he borrowed.

Likewise, none of the Greek dramatists used original material, but reworked the traditional themes of folk-lore. And Michelangelo's conceptions were all taken from medieval art forms. The way to greatness is not to say something new, but to say something old in a way that reveals new and deeper levels of truth, beauty, and understanding.

Twice as Much Lumber For Furniture by 2000

WASHINGTON, D.C. — Lumber consumption in the manufacture of office chairs, desks, tables, file cabinets, school and church furniture is expected to increase from 182 million board feet in 1962 to 320 million board feet by the year 2000, the National Forest Products Association reports.

Capital Punishment Losing Acceptibility

Most Death Penalties Imposed for Murder, Other Crimes Included

By LARRY KNUTSON
CHICAGO (AP) —Death appears to be dying as the supreme penalty of American justice, even though most states cling to capital punishment statutes.

A survey by The Associated Press showed that 13 states have abolished the death penalty or so severely restricted its use to make it almost nonexistent. Some states have not executed a criminal in decades.

Most death penalties are imposed for murder. But some states can execute for rape, kidnapping, armed robbery, treason against the state. In Oklahoma, the death penalty legally can be imposed for peddling narcotics to minors.

Death for Arson
In Connecticut, causing death by tampering with railroad tracks or by "willfully burning any vessel or building" are crimes punishable by death. Another state can impose death for burglary of an inhabited house at night.

But death at the hands of the state is becoming a rarity and the voice of the abolitionists is louder and more frequent.

Legal executions have been abolished in Alaska, Hawaii, Iowa, Maine, Michigan, Minnesota, North Dakota, Oregon, West Virginia and Wisconsin. It has been abolished with qualifications in New York and Vermont and has been on the books in Rhode Island since 1964—but never used.

Fleeing Prison
The death penalty was abolished by the New York Legislature in 1965. An exclusion involves persons who kill policemen or kill while escaping from prison.

Rip Van Winkle Couldn't Sleep with Nagging Backache
Nagging backache, headache and muscular aches and pains may come with over-exertion, emotional upsets, or everyday stress and strain. If this nagging backache, with restless, sleepless nights, is wearing you out, making you miserable and irritable, it's a warning. Dr. Dean's Pills — an analgesic — pain reliever — Dr. Dean's Pills — is often the answer. Get Dean's Pills — not a habit-forming drug — but a well known standard remedy — used since 1915 by more than 60 million people. See if they don't bring you the same welcome relief for convenience, always buy Dr. Dean's large size.

corps of abolitionists in nearly every state. Among the leaders are the American Civil Liberties Union and the National Association for the Advancement of Colored People.

Matter of Money
They point to federal statistics on all executions in the United States between 1930 and 1956. Of the 3,856 persons executed in that period, 54 per cent were nonwhite. Of white persons executed, they hold, the majority lacked funds to pay for an adequate defense.

"When they execute for rape," said Hans W. Mattick, associate director of the Center for Studies in Criminal Justice at the University of Chicago Law School, "at least 90 per cent are nonwhite."

The abolitionists are attacking capital punishment under the provisions of the First Amendment to the U.S. Constitution barring "cruel and unusual punishments."

One of their arguments is the increasing rarity of the punishment itself.

Game of Chance
"There are some 9,200 homicides a year," Mattick said. "When only an average of 10 persons is executed, it begins to look like a lottery."

Mattick and other abolitionists point out that persons who are against the death penalty are automatically excluded from juries in capital cases. They contend this kind of elimination leads to juries preconditioned to find defendants guilty and to recommend death.

Although many legislatures go through an annual process of killing all capital punishment bills, the death penalty remains a threat that is not often carried out.

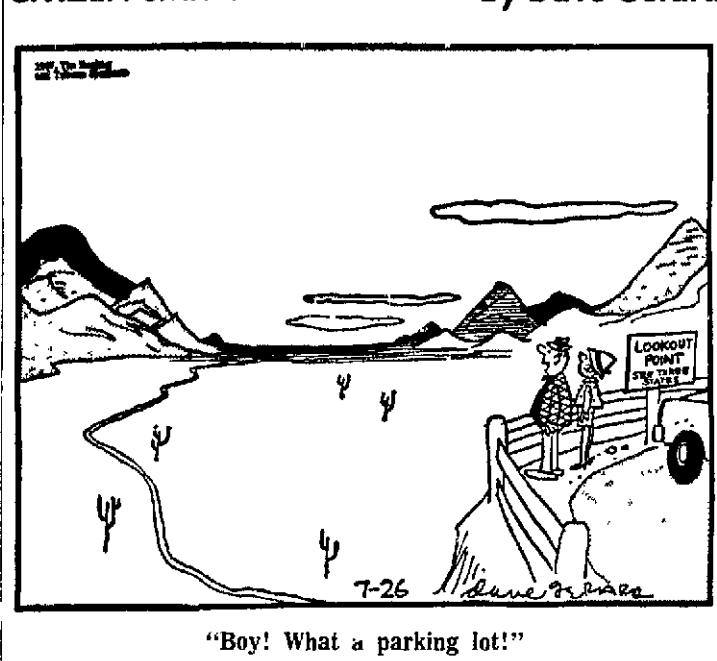

In Georgia, for example, an unofficial moratorium on executions is in effect. Gov. Lester G. Maddox has said he will ask the legislature to call a referendum on the retention of the death penalty. Some 20 men are now awaiting execution in the state.

Execution Board
In Florida, the ACLU has obtained an injunction from the U.S. District Court in Jacksonville barring further executions until settlement of a suit challenging the state's murder laws.

In 1965 a state legislative study committee recommended abolition of the state's murder laws and Gov. Haydon Burns refused to sign any death order and Aug. 3.

Gov. Ronald Reagan, who says he supports capital punishment, announced through aides that the state attorney general had been asked to appeal the court order. Reagan has granted one man executive clemency; among several condemned men in a 1966 attempt to get an

CITIZEN SMITH

Detroit's West Side

Riot's 'Other Victims' Struggle to Find Food

DETROIT (AP) — The old Negro man carried a burlap bag over his bent shoulders. He worked his way to the front of the line at the church on 12th Street.

"I want some milk," he said, his hand clenching the bag as though it might escape.

The food line stretched out the door and onto the lawn. A woman in a yellow blouse and khaki men's trousers held a large, pink shopping bag. A boy, about 7, pulled a red wagon with an empty basket and cardboard box in it. Others in the line clutched cardboard boxes or brown paper bags.

"We got the idea last night," said the Rev. Robert L. Potts, chairman of the Virginia Park Rehabilitation Project which had collected food to dispense to residents of Detroit's West Side, the area hit hardest by rioting that had killed more than a score and injured hundreds.

These were the other victims of the violence and plunder that had turned block after block of the West Side into smoking ruins and wrecked stores, gaping empty, windows shattered and smashed, shelves cleaned off or cluttered amid litter and debris.

They lived in the tenements, apartments and houses off 12th Street. "We didn't burn anything," a woman said. But now there were no nearby grocery stores left to provide food. Many families feared to travel far or had little gasoline left because of travel restrictions and shutdown service stations.

Long stretches of Grand River, 12th and 14th streets lay raw, stretches of incredible destruction, fingers of litter and rubble, smoldering hulks, shattered glass.

"They're going to really suffer after this," said a Negro woman, Mrs. Milton Jones, neatly dressed in shorts and blouse. She stood outside the church. "Stealing, breaking into stores," she went on, surveying the littered street.

"Innocent people are the ones that are suffering."

Sixteen-year-old Louise Collins nodded agreement.

"I saw them breaking into the cleaners Sunday," she said.

"They were colored."

Did these, the other victims, know why it all happened?

Mrs. Jones shook her head. "I have no idea."

'I Don't Know'
The girl beside her said, "I don't know. But they said people didn't do what they were supposed to, like building houses."

A heavy-set, solid-looking man, Waldo Smith, was helping hand out food. He was senior warden of Grace Episcopal Church. "We've got a lot of people here that need help and we're trying to take care of them," he said.

A Negro woman walked up. "I heard you were giving away bread and I've got five kids at home and nothing to eat," she said.

A social worker who had been busy on the West Side said only a few grocery stores were open around 12th Street.

"But they were out of the staples, milk and bread. We drove to the suburbs but the panic buying cleaned them out," she said.

Stores Destroyed
"The food problem is critical."

About 400 food stores were destroyed in the burning and looting, said Edward Deeb, executive director of the Food Dealers of Greater Detroit.

Food industry spokesmen said, however, that there was ample food available and no shortage would develop unless panic buying became general.

Some stores were out of bread, milk and some kinds of meat. Churches and other relief agencies were receiving food and clothing from such distant cities as Monroe, on the Michigan-Ohio border nearly 60 miles away, and from Marine City, about 50 miles to the northeast.

"As soon as we get the food, it goes out," said the Rev. John George of Visitation Roman Catholic church. "We've had six or seven truckloads. But it's not enough, especially the bread and milk."

Walk Into Parish
Three families of riot refugees had walked into the parish where Father George was at work Monday night. Among them was a widowed mother of five. Her husband had died, apparently of a heart attack, when their house burned.

Homes for the refugees were provided by white families in northwest Detroit.

"The refugees are a problem," he said. "We know they are there. But the people are scared. They're afraid of the snipers and of the police. They are hiding somewhere, but we

Malaysia Orders More Military Helicopters
KUALA LUMPUR (AP)—Malaysia has ordered more military helicopters from the United States, a Defense Department spokesman reports.

He declined to state how many or of what type they were other than that they were "medium-sized."

Earlier this year the Malaysian military ordered about 15 large U.S. military helicopters capable of carrying 25 or more troops each.

Depressions May Vary In Type, All Serious

BY JOSEPH MOLNER, M.D.

Dear Dr. Molner: Could you suggest ways for a woman to fight depression? At times I get so "low" I actually feel panicky, desperately searching for an escape from the state of mind. On occasion the thought of suicide has crossed my mind. I'm sure many women battle with depression — A B

Dr. Molner

I'm sure they do, too. But so do men.

Depression is a real health problem. Or I might better say "depressions," because they are of varying types as well as varying severity.

All of us have our ups and downs, just as some days we are lousy and tired, some days full of vim and enthusiasm. We all learn to get past these "low" days, one way or another.

But with some people — and it's not a small number — the "low" feeling isn't a day-to-day

affair but becomes pretty much permanent. That is what we mean medically or psychiatrically, by "depression." It can be as about "psychosomatic" illness, we have to realize that just as "nerves" can affect us physically, physical conditions also affect our emotions.

It is beside the point that we don't yet know nearly as much about these subtleties as we might wish. We do know something. In depression, depending on type and severity, drug treatment is both possible and useful. Various "psychic energizer" drugs have come into use. They have to be used with care, and the right ones used for the right case. Originally this was in the field of psychiatry. More and more internists and general physicians are learning how and when to use them.

There's no point in running to a doctor if you have an occasional day of feeling down in the dumps, but if it settles into a continuing condition, then it is time for medical help.

It is an emotional matter, can refer you to someone who is treating these depressions.

A very severe case should be treated by a psychiatrist who can gauge the danger, and decide whether shock treatments, or hospitalization, may be necessary to avoid risk of suicide which is a very real peril in some cases.

For less urgent cases moderate medication is sufficient.

The dividing line is not always easy to determine — even the line between mild depression and an ordinary case of being "down in the dumps" from boredom and inactivity. The point is that help is available, even though a patient (or the family) may have to do a bit of hunting.

There's one very happy thought: Most cases of real depression can be corrected, very often with no recurrence.

Dear Dr. Molner: Your article

on artificial sweeteners interested me from another standpoint. Are they permitted on a low-sodium diet? Also, are not the additives used to retard spoilage leading us all to a higher sodium intake than may be good for us? — A T

No. For practical purposes the amount of sodium in the additives is not significant. As to sweeteners, calcium cyclamate is available.

Note to N.H.: If your friend has not asked the doctor for something to ease that persistent diarrhea, he should, because several treatments are possible. Milk of bismuth, a teaspoonful after each movement, may help. So may strong tea, or boiled milk. But, as I said, he should ask his doctor for help. More important is to find out what is causing the diarrhea. Certain diarrheas are infectious so he may be a menace to others as well as himself.

FBI Boss Hears Same Old Story: He's Dictator

By JAMES MARLOW
AP News Analyst

WASHINGTON (AP) — The FBI was a pretty crummy outfit when he took it over, full of political pets and incompetents. He quickly built it into an American institution. It's been that way since.

In three years he had cleaned out the misfits and put it on its feet. This has been a great satisfaction to J. Edgar Hoover but Stone, offered him the job. He peace of mind doesn't always accompany satisfaction.

He has been picked and pecked at almost from the beginning. Some times he has do reacted with heat. Much of criticism has been ludicrous. Hoover had been a lawyer with the Department of Justice seven years when he was chosen at 29 to head the Bureau of Investigation, which wasn't called the Federal Bureau of Investigation until 1935.

He is 72 now and today is the

50th anniversary of the start of his government service. He has headed the FBI 43 years. In the government, retirement is mandatory at 70 but in his case President Johnson waived that requirement.

Own Conditions

He set the course the FBI has followed from the day the then-attorney general, Harlan Fiske Stone, offered him the job. He would run the agency. Politicians couldn't tell him what to do or whom to hire. Appointments would be by merit and advancement. He staffed the FBI with young lawyers and accountants as agents, whose number has risen from 441 to 6,100.

Before they are accepted they must survive an investigation of their conduct, common sense and loyalty. They have to go off it and keep your agents free on Hoover, fearing he had too by infiltrating it.

through a 14-week training of outside discipline and inside course.

The year after he took the job Hoover laid down a rule which still is in effect: an agent must by his conduct eliminate criticism. Even in their clothing the agents are inconspicuous.

Hoover put the FBI ahead of most of the nation's police departments — probably all of them — in 1926 when he warned them his agents never to use threats or inducements to get confessions. You never hear of FBI agents using third-degree.

It has been a rather traditionalism among some liberals to criticize Hoover as a dictator. There is no doubt he runs the FBI with an iron hand. But he has insisted from the beginning that local problems of law and order are the jurisdiction of the local authorities, not the FBI.

In Roosevelt's day there were success with gangsters and Nazi saboteurs to cutting the American Communist Party to pieces by infiltrating it.

much authority. At the same time Ku Klux Klan leaders were trying to get him out.

He was criticized for the way he made it. This has been an endless story. It just takes new variations from time to time.

He has even been criticized for almost never holding a news conference, and being very hard for newsmen to see individually, although he is not required to do so.

Hoover summed up his bureau's problems in 1956 when he said of civil rights cases: the FBI is unpopular if it obtains facts which result in prosecutions and it is unpopular if it doesn't.

He told his agents: "Our sole purpose is to do our job objectively." It is hard to think of anything more impressive in government service than the FBI record, ranging from its success with gangsters and Nazi saboteurs to cutting the American Communist Party to pieces by infiltrating it.

Proxmire Lauds Kennedy View of Slum Problems

WASHINGTON (AP) — Sen. William Proxmire, D-Wis., had praise for Sen. Robert Kennedy's view of the relation between housing and slum problems. Proxmire spoke after Kennedy urged a Senate Committee to approve a bill to encourage private investment in providing low-cost housing for poverty areas.

Proxmire commended Kennedy for emphasizing that housing is only part of the slum problem and for maintaining that jobs and education are at least equally important.

But the Wisconsin Democrat said that even with relatively low rentals that the bill would make possible, only one-fifth of the nation's families now living in substandard housing would be able to afford to pay them.
